This Pre-Audit Analysis is the starting point for development of a customized audit plan and procedures to be used by a qualified practitioner to perform a tax compliance review of a taxpayer participating in the Certified Audit Program. As a qualified practitioner, you must document your review of the business operations of the participating taxpayer using the work steps outlined in this Pre-Audit Analysis. The combination of required actions and questions is designed to gather the information necessary to prepare the audit plan and procedures for conducting the tax compliance review. The purpose of this preliminary review is to gain an understanding of the taxpayer’s business operation and books and records, including revenue and expense accounts and internal controls.

Once you have completed the Pre-Audit Analysis, you must prepare a proposed Audit Plan customized for the participating taxpayer. You must submit the completed Pre-Audit Analysis, the proposed Audit Plan, and procedures to conduct the tax compliance review within 30 calendar days after receipt of the Department’s approval of your Request to Conduct a Certified Audit (Form DR-342000).
