CERTIFICATE OF REPORTER

ACCURATE STENO TYPE REPORTERS, INC.
GOVERNOR SCOTT: All right. The next agenda is the Department of Revenue, presented by Lisa Vickers. Good morning.

MS. VICKERS: Good morning. Item 1 on our agenda is to request approval of the minutes from the June 16th meeting.

GOVERNOR SCOTT: Is there a motion to approve Item 1?

COMMISSIONER PUTNAM: Governor?

GOVERNOR SCOTT: Yes, sir.

COMMISSIONER PUTNAM: I only make note of this because it affects the director. Page 60, line 22 says that I said she's putting her agency in an unfair position. I said we're putting your agency. So that should read, so I think we're putting -- probably putting your agency in an unfair position. So I move to approve with the one change.

GOVERNOR SCOTT: Is there a second on the commissioner's --

CFO ATWATER: Second.

GOVERNOR SCOTT: Moved and seconded. Item 1 is approved without objection, based on the motion by the commissioner.

MS. VICKERS: Thank you. Item 2, we're requesting approval to adopt amendments to a
property tax rule, Rule 12D-9.019(7)(b), in response to an objection filed by the Joint Administrative Procedures Committee of the Legislature. The current rule was adopted in March of 2010 to address rescheduling of Value Adjustment Board hearings when there is a delay. The rule in part reads, in no event shall a petitioner be required to wait more than a reasonable time from the scheduled time to be heard.

The Joint Administrative Procedures Committee found that this portion of the rule modifies or contravenes the statute by failing to include a four-hour limitation. The statute in question reads as follows. It's 194.032(2). No petitioner shall be required to wait for more than four hours from the scheduled time, and if his or her petition is not heard in that time, the petitioner may at his or her option report to the chairperson of the meeting that he or she intends to leave. And if he or she is not heard immediately, the petitioner's administrative remedies will be deemed to be exhausted and he or she may seek further relief as he or she deems appropriate.

The Department believed that the language in the statute had been overturned by a 1974 amendment,
Section 194.032(3) that provided that an aggrieved party could go directly to circuit court and no longer needed to exhaust their administrative remedies. That position was upheld by the Third DCA in a 1982 opinion of St. Joe Paper Corporation v. Miami Dade.

Two other statutes were passed in 2000 which sort of further confused the issue. In 2000 the Legislature enacted the taxpayer bill of rights as related to property tax. And in doing so, they enacted a provision in 192.015(d) which provides in part -- well, I guess let's talk about (f) first, (f), which provides in part, the right in Value Adjustment Board proceedings to have all evidence presented and considered at a public hearing at the scheduled time, which seems pretty clear.

They also in that same legislation in (d) restated the language that had occurred in that earlier statute that we believed had been overturned. And that provision reads, the right to prior notice of the Value Adjustment Board's hearing date and the right to the hearing within four hours of the scheduled time.

The Joint Administrative Procedures Committee felt that by failing to include the four-hour
provision, that the Department had eliminated an
important protection for taxpayers, meaning that
because we only required that it be a reasonable
time, a reasonable time might be interpreted to be
longer than four hours, could be six hours or seven
hours, and that the four-hour provision could be
read independently of the requirement to exhaust
administrative remedies, so that that portion of the
statute had not been overturned.

The Joint Administrative Procedures Committee
directed the Department to reference the four-hour
rule in any amendment to its rule to correct this
issue.

We've spoken to a lot of individuals over the
years. When we first created this rule, the issue
of what the four-hour provision meant was in
controversy. And it was very clear that citizens
and those who represented taxpayers in Value
Adjustment Board hearings felt that this was an
important issue.

And I think most of us can agree that asking
someone to wait up to four hours from their
scheduled time is pretty onerous and not really
acceptable. It drives up the cost to taxpayers
through lost productivity. If they've hired a tax
rep who is charging on an hourly basis, sometimes the fees that they have to pay to challenge their assessment in the Value Adjustment Board process can actually exceed the amount of the savings they were trying to achieve by getting the adjustment corrected.

But clearly, based on the Joint Administrative Procedure Committee's direction to the Department, we believe that we have to amend the statute because they have interpreted this section as remaining but that we should return to the Legislature to try and get this fixed through legislation.

As I mentioned in our May 3rd meeting, you have two options. You can adopt the amendments to the rule, which is our recommendation, since I think their -- their direction is pretty clear that they feel that this at least creates that limitation of four hours to the definition of reasonable, or you could reject the Joint Administrative Procedures Committee's objection, in which case they would file notice with the Department of State, and they may request the Department temporarily suspend its rules while they would presumably get legislation to direct us to take this action.

If you have any questions about the Joint
Administrative Procedures Committee, John Rosner, who is staff from that committee, is here and could answer questions about that process. And we have a citizen, Sheila Anderson, who is a tax representative, who may wish to speak to talk about the impact of the four-hour provision on citizens.

Clearly, the concern is that by having a time in there, some clerks may interpret that as cover or authority to make people wait up to four hours, you know, before saying that they have the right to be rescheduled.

CFO ATWATER: Governor --

GOVERNOR SCOTT: Absolutely.

CFO ATWATER: Just for information, do you know if -- and maybe somebody else would know. Personally, I think four hours is atrocious. And we are the government. We're the one who has placed the tax. And if we can't set a schedule and hire the resources to be able to, during that intense period of time, be prepared to take care of a citizen's request to petition their government for change to what they believe is unfair -- and I know this isn't your statement, but that just seems ridiculous to me. I'm curious why the Legislature didn't say 30 minutes or whatever the petitioner
brought before us they get.

MS. VICKERS: Well, the history on this is really kind of interesting. I try not to bore you with history, but I love history. Back in 1969, because there was such a demand in front of the adjustment process, that's back when you had all this pressure in the state to try and get values to a hundred percent just value, because there had been a very poor process in the past, and the State moved away from a board of equalization to this new adjustment process. And so there was a heavy demand for hearings.

And sometimes in large metropolitan areas petitioners were waiting days to get their hearing. So the Legislature came in and they passed a statute that said, if your petition was not heard within two hours, you automatically won.

Well, that didn't really work very well because then they were having to grant a lot of adjustments that maybe were not justified because of the delays in the hearing. So the Legislature came back in 1970 and created this four-hour provision. But if you carefully look at the language, you know, it talks about going to the chairperson and alerting them that you want to be heard immediately.
I think the four-hour provision was really looking at the situation where petitions were heard in front of a Value Adjustment Board, similar to like a hearing before the Governor and Cabinet, and so the schedule was a four-hour block. The board is going to meet from 8:00 in the morning until noon and your petition is going to be heard during that time period, or similar to a committee meeting in the Legislature. The scheduled time is 8:00 to 10:00 and that bill is going to be heard during that meeting.

With the use of special magistrates, you have hearings being held in front of an individual, and you really can create a schedule that says your hearing is going to be at 9:00, your hearing is going to be at 9:15, yours is at 9:30. And so I think this language is really very outdated in that it was addressing sort of a different way of holding these hearings.

On the clerk's side, what they will say is, you know, they never know exactly whether everybody is going to show up to their hearings or not, and so they overbook these time periods. But the result is, is that if a lot of people show up, some people are being required to wait lengthy periods of time.
I think some clerks are probably better -- you know, if somebody steps forward and says, "I need to get back to work," or, "I can't wait," in allowing a rescheduling. Other clerks I think probably do look at the time and say, you know, "You haven't waited four hours," which is really pretty egregious.

The impact on taxpayers is definitely significant. I know that any one of us who has to go to a doctor's appointment or anything and you're required to wait, that's productivity and that's time. And for people who are there to try and achieve some minor adjustment to their value and they're taking time off from work to do that, it seems like we should be able to provide a better process for them.

CFO ATWATER: And it seems as if the Legislature, through JAPC, is saying back, don't take that out because citizens at the minimum deserve to be heard within four hours. Is that correct?

MS. VICKERS: Right. We have gone to the Legislature for two years. There was a bill filed in 2010 that never made it out of committee to just remove this obsolete language. It didn't go anywhere. And then last year we went -- or this
year, 2011, we went to the Legislature again, and a bill was filed in the Senate. And we asked to just remove the language, and instead the sponsor wanted to at least keep some time limitation in there and kept "not to exceed four hours."

I think four hours seems like a pretty long amount of time to make somebody wait for a hearing that's scheduled at a particular time. So I think they would want to look at that in particular.

I do agree that our rule, according to JAPC looking at our rule, that just says within a reasonable time could be interpreted to mean more than four hours. And that was certainly not our intention. We were really thinking in terms of a shorter amount of time. But it could be read that way. And so we feel like at least putting this in the rule, as JAPC is directing us to do, creates at least that protection, until we can fix this legislatively.

ATTORNEY GENERAL BONDI: So is -- I'm sorry, Governor. I as well read the legislative -- the history, back in the sixties. So you can see where the four hours came from and why, but I also see the tremendous problem with it now. When these hearings are scheduled, they're obviously not like criminal
cases where you have dockets of hundreds of people. How many are set each day approximately? Do you know?

MS. VICKERS: It depends on the county. It is very similar to the cattle calls you see sometimes. That's sort of the way they refer to them, where you can have hundreds scheduled in the morning. Most clerks look at it and try and figure out, based on past history, how many petitioners typically don't show up. And so they try to figure out what the schedule should look like based on the typical number of petitioners that will attend their hearings. And sometimes they probably get it better and sometimes not.

Many clerks still do the block scheduling, which is similar to -- sometimes when you go to a court hearing and you show up at 9:00 and you look around and there are a lot of other people, well, they all have 9:00 hearings. They schedule that way. They'll schedule everybody for 9:00, knowing that everybody can't be heard at 9:00, and then people sit and they wait.

ATTORNEY GENERAL BONDI: And that's frustrating when people do have jobs and they come in at 9:00 and have to sit there all day. That's so
frustrating.

MS. VICKERS: What's interesting is that in counties like Miami-Dade, which by far have more petitions filed than anyplace else -- I mean, there's in excess of 80,000 petitions filed in a VAB season. They have continuous hearings all year long. They never stop. They don't have a VAB season that just lasts a couple of weeks or a couple of months, so they have them all year long.

They actually can do a better job of scheduling because they know that it's going to continue on, and so they try to schedule realistically. And if somebody has a conflict or it's delayed, you know, they can just go ahead and reschedule them for another time.

In a smaller county, where maybe they've paid for a special magistrate for a month, they're going to have him there for a month to hear petitions, if someone wants to be rescheduled and they want the 25-day notice that's in the statute for noticing a scheduled hearing, now suddenly, if they're towards the end of the month, they're going to have to call a special magistrate back in to schedule that hearing.

So I think they tend to really try to compress
everybody into that time frame and keep them there to get them through and not try to reschedule. You know, while that might be efficient and convenient on the government's side, it certainly has an adverse impact to the taxpayer.

ATTORNEY GENERAL BONDI: What is your best recommendation to us right now for, you said a temporary fix?

MS. VICKERS: My recommendation is that we adopt the language as directed by the Joint Administrative Procedures Committee, because to not have a rule at all just leaves the statute there as guidance. Our rule at least says that it needs to be reasonable, so I would assume that if a clerk is doing their job, they understand that it is supposed to be less than four hours. If 30 minutes is unreasonable, it shouldn't be any more than 30 minutes. If, you know, an hour is unreasonable, it shouldn't be more than an hour.

I understand that some clerks may see this as giving authority to go up to four hours. I think we can address that by trying to provide some bulletins and information to clerks about how they should be interpreting this provision. There will probably still be abuses. I don't doubt that. I think we
need to go to the Legislature, and we can bring back a legislative concept to you in September with our package.

   I would like to discuss the issue more and involve some of the parties that have raised concerns to what they think would be an adequate fix for this problem.

   GOVERNOR SCOTT: Is there an option to just say two hours?

   MS. VICKERS: The Legislature can say anything they want.

   GOVERNOR SCOTT: But you can't in a rule.

   MS. VICKERS: I can't -- the Joint Administrative Procedures Committee would not -- they would have another objection to two hours because the statute says four, so it would contravene the statute.

   GOVERNOR SCOTT: All right. Did Sheila Anderson -- good morning.

   MS. ANDERSON: Thank you, Governor. I've come for doughnuts, but I didn't see them when I came in the room. I have represented a taxpayer who has property from Key West to Pensacola, and I have gone through hearings in many jurisdictions. What I haven't heard this morning that I think is very
relevant is who thinks what is reasonable, and
reasonable should be what the taxpayer finds
reasonable, since it's their protection against
over taxation and it's their cost to not only service
the Value Adjustment Board and pay for the Value
Adjustment Board, which is critical to having lawful
taxation, but also they're paying for the cost of
going to the hearings and perhaps paying someone to
help them.

What I think would be helpful would be that you
strongly recommend to the Legislature that the
four-hour language is repealed and that reliance is
placed on the language that said at the -- at the
scheduled time, which was intended to clarify the
muddy history on the four-hour basis. And "at the
scheduled time" is handled very well by counties
with large volumes of petitions, and there shouldn't
be any problem in the smaller venues.

"Reasonable" changes, in my circumstances,
depending upon where the hearings are located, time
of day, weather conditions, what else is going on on
my schedule. I might have to be in two counties at
the same day and/or other things may come up.
Someone in front of me at a hearing sometimes that
is properly managed may have a longer presentation
involved or has filed a petition asking for longer
time and the clerk has not complied with that.

But in no case should a petitioner or a
taxpayer be subject to the discretion of a clerk,
because the question becomes who's working for whom.
And that's the biggest part of the problem. "At the
scheduled time" works, and you have that law, and it
was intended to make clear what the scheduling ought
to be.

And as Lisa has said, Miami does it very well
and keeps the schedule going all day long, all year
long, with multiple hearing rooms set up. And you
can have your hearing heard earlier if a magistrate
has gone through the schedules sooner than expected.
It may take a little longer on occasion, but I think
everybody understands, if someone isn't finished, to
let them conclude their hearing without imposing
restrictions on the process.

So "at the scheduled time" works. And if you
could send a message to the Legislature and get the
Joint Administrative Procedures Committee to sponsor
a committee bill that says repeal the four-hour
language, you solve the problem, at no cost to
government but you will be saving taxpayers a great
deal. Thank you.
GOVERNOR SCOTT: Thank you very much.

MS. ANDERSON: And I'll take a doughnut.

GOVERNOR SCOTT: Thank you.

MS. VICKERS: So our recommendation is that you approve this amendment. And we would return with our legislative package to raise this issue with the Legislature to try and correct it.

CFO ATWATER: Governor, might I just maybe make that motion, with the request that the Department does provide us with -- so that we could look at that recommendation as Ms. Anderson has suggested, highly endorse that to the Legislature for this session. I make the motion.

GOVERNOR SCOTT: Commissioner?

COMMISSIONER PUTNAM: I'm all for your recommendation. Part of me feels like we're gagging on a gnat a little bit here. I mean, most of these clerks are elected. I don't tell the sheriffs how to run their office. I won't tell the clerks how to run their operation. And JAPC can't, or at least when we were there, couldn't propose legislation. They didn't have that authority.

If you said only at the scheduled time and you've got a great clerk who runs a great operation and the person at 9:00 doesn't show up but you're at
9:15, they can't take you at 9:00 because it says only at the scheduled time.

I mean, we're trying to legislate from the Cabinet. I just think that's a -- I think it's a bad idea. I think we should accept Lisa's recommendation and encourage that this be in her legislative package and let the Legislature resolve this.

MS. VICKERS: You know, I have not found that taxpayers and people who are tax reps, in discussing these issues, have been unreasonable in trying to make sure that it's not so rigid that if somebody is running late, it can't be a few minutes late. I think it's the overall -- you know, to say four hours gives the perception that it's okay to make somebody wait an extraordinary length of time.

So we would be careful in the recommendation that we come back with, that it's not so strict as to drive the cost up of the hearing process but to try and accommodate that.

GOVERNOR SCOTT: I think the motion was the CFO's motion, which would ask them to come -- do you want to state yours again, or do you want to change it?

CFO ATWATER: Thank you, Governor. I just
would make the motion that we accept the rule as presented and in further discussion that they would come back to us. It was not meant to be part of the motion, but that my hope is that they would create their agenda.

GOVERNOR SCOTT: Is there a second?

ATTORNEY GENERAL BONDI: Second.

GOVERNOR SCOTT: Moved and seconded. Show it approved without objection. Thank you very much.

MS. VICKERS: Thank you.

ATTORNEY GENERAL BONDI: Thank you.

GOVERNOR SCOTT: Thank you, Ms. Anderson.

CERTIFICATE OF REPORTER 70

ACCURATE STENOTYPE REPORTERS, INC.
GOVERNOR SCOTT: Okay. The next agenda is the Department of Revenue presented by Lisa Vickers. Good morning.

MS. VICKERS: Good morning. Item 1 requests approval of the Department's Annual Performance Contract, our Long Range Program Plan, and our Capital Improvement Plan. I usually like to group these three items together because I think they provide a good overview of the Department's performance, the standards that are set for the next year, the strategies that we are putting in place to achieve those performance goals, and how we are handling our leased facilities.

In child support enforcement, the Department achieved a 5 percent increase in collections compared to previous years. That is a .2 percent increase among — compared to a .2 percent increase among the eight largest states and a .7 percent increase across all states. This is important because the Department earns incentive dollars from the federal government based on our performance as compared to other states. And over the last four years, we have increased our incentive earnings by $5 million.

The program has also increased order
establishment -- this is an essential step in child
support collection -- by over 17 percent this year
and by over 49 percent over the past two years.

In general tax administration, the Department
had a record-setting year with audit collections of
323 million, while reducing accounts receivable to
1.4 percent. This compares to an industry standard
of 2 percent.

In property tax oversight, property appraisers
achieved a 99.6 percent statewide average level of
assessment under the Department's oversight. This
results in greater uniformity across property types
and is an increase from approximately 96 to
97 percent over the past three years.

In child support enforcement, we met three out
of our four approved standards, which are found on
page 5 of the performance contract. The standard
that we did not meet in child support was percent
of current support collected. And although we
increased current support collected by a full
percent, this measure was affected by the continued
unemployment in the state and the Deepwater Horizon
oil spill.

IDO$s, income deduction orders are the best way
or best means of collecting child support on income
from jobs. When unemployment went up, we began to
put IDOs in place for unemployment compensation
payments. And while we still continued to receive
collections, they were at a reduced amount.

The program has tried to mitigate this by
sending notices to employers to ensure that they're
complying with new hire requirements as people do
become employed.

In general tax administration, the Department
did not meet its approved standards for the fiscal
year. I always tell our employees in the
Department that measures are great, but measures
tell a story, and you have to understand the story
behind those measures to understand what is going
on with your performance.

In general tax administration, for example, we
did miss our standard of 99 percent in percent of
tax returns reconciled within 30 days. This is a
standard that we routinely meet. We made a
decision early in the year to hold processing of
unemployment tax returns because the Legislature
had pending legislation that was going to affect
the rates that taxpayers would be obligated to pay.
And rather than processing those returns twice if
the law changed, we held them up so that we didn't
expend resources in processing until we knew the outcome of the session. So we did not meet that measure. We came in at 97.9 percent.

We're also changing that measure slightly and have had approved by the Legislature to go to 25 days. We think that we will be able to meet that measure in future years unless again we make management decisions to hold up returns.

This is an area that you wouldn't want to expend a lot more resources trying to improve on this measure. I mean, we are at a really high rate. We're processing returns in a very reasonable amount of time. In order to achieve 100 percent or, you know, a higher rate than what we're achieving, you would be expending resources to go after speeding up a very small percentage of returns that have to be handled separately because they have issues that we discuss with taxpayers.

In the percent of educational information/assistance rendered meeting or exceeding taxpayer expectations, here we are at an 88 percent level. The approved standard was 96 percent. But we had a change in the way we handled surveying taxpayers. In the past we would call taxpayers and ask them if they were satisfied
with our -- if they were satisfied with the
information and assistance that we provided to
them. So we were calling a random selection of
taxpayers, and our response was really high.

When we moved out to our new facility and
changed our phone system, we went to an automated
system where a taxpayer can choose to enter into a
survey. They're not contacted by us. And as would
be expected, a lot of times the taxpayers that
choose to do the surveys are ones that are not
happy with the performance as opposed to just a
random sampling. So we will be looking to change
that measure slightly to be more reflective of that
new procedure that we have in place.

The percent of tax compliance examinations
resulting in an adjustment to a taxpayer's account,
there we increased performance from 57 percent last
year to 61 percent this year, but again, below the
approved standard of 65 percent. That is an area
that I'm very focused on because there has been a
lot of indication that the Legislature should
provide more auditors to the Department.

We always tell people you can do more with
more, but this is an area where if we can make sure
that our auditors are focusing on the taxpayers
that are most likely to have noncompliance, you can increase your performance. You can increase your return from that resource without having to increase the number of human resources.

It's really a capacity area, where it's underutilized capacity when you send an auditor in to a taxpayer for an audit that is not as likely to produce an examination that's going to show an assessment. We do that through, you're going to hear later in our strategies, focusing on third party data that tells us where the right places are to focus our efforts.

And then finally, percent of collection cases resolved in less than 90 days, there the standard -- we're up from last year of 60 percent to 60.3 percent. But the approved standard is 66 percent, so we continue to focus on that area as well. As we bring our accounts receivable down, it is more likely that the cases that we have in our inventory are the harder to collect cases, and so you're not going to see that measure probably increase much beyond there.

We have had some discussions with the CFO regarding our performance measures, and we hope that over the course of the next six months we can
come to you and show you some measures that you
might want to incorporate into the Performance
Contract next year. It's always nice to be able to
focus on these individual business processes and
areas, but I don't think that you get a view of
more global measures that tell you the overall
performance of the agency. So we're working on
some measures that I think will give you a better
insight into how the agency is performing overall
in terms of leveraging our resources to bring you
the best performance results.

The Long Range Program Plan details the
Department's plan to implement a number of
strategies to reduce costs and improve performance.
Over the past several years, the Department has
reduced our leased space footprint by approximately
10 percent by consolidation of our Tallahassee
offices and service centers and restacking our
staff. It has also reduced our overall processing
and printing costs by approximately 32 percent.

The key strategies that we're focusing on that
you can find in the Long Range Program Plan, in
child support enforcement, the biggest strategy
there is the full implementation of the CAMS
system, the Child Support Automated Management
System. This will allow us to automate routine
tasks and free up staff time for more complex
tasks.

Our full usage of the FLORIDA system was
costing us approximately $22 million a year. Next
year while we're running both system simultaneously
for a little bit longer as we're moving information
over, it will be about $19 million. And when CAMS
is fully operational, our cost of our technology in
that area will come down to $14 million. So we'll
go from $22 million in technology costs down to
$14 million in technology costs.

You heard me mention earlier that increasing
the number of new support orders is an important
area. And while we've increased our performance
there by 49 percent, it's important to understand
that in order for us to collect child support, the
ultimate purpose of our child support enforcement
program, we have to get those support orders
through the judicial process and with some
supplemented through the administrative process.

If we can't increase our capacity in that
process, we'll never be able to perform well at the
end of that string of business processes, which is
the collection of child support. So we have a
number of strategies with the implementation of CAMS to try and increase the new support order establishment.

Just to kind of give you a mind-numbing figure or mind-boggling figure, we produced 58,000 new orders last year. That was up 49 percent from two years past. We get about 120,000 new cases a year that need new support orders, so we have to dramatically increase that support order establishment number to keep driving up that performance of collections. But we will use, again, CAMS to reassign staff. We're going to increase docket capacity by working with our partners to add temporary hearing officers in the judicial circuits.

We're going to rework our business process and our work flow to ensure that we are sending the very best cases through that very limited resource of the judicial process. We want to minimize the number of cases that we send through that process that ultimately get dismissed without an order, because, again, that's lost capacity through that system.

The key strategies in the general tax program will focus on improving performance and reducing
costs, again, there the use of third party data so
that we better improve the effectiveness of
identifying the possible businesses that are not
meeting tax obligations, increasing our performance
by using more automated tools. We're implementing
a collection analytic system that will allow our
collectors, our collection resources to be used in
the most effective way.

We also have as part of our strategy the
one-stop registration system that we've been
talking about. I actually have a meeting in the
House today and in the Senate tomorrow to talk
about our efforts to take agencies that deal with
businesses and create a one-stop registration
portal, Governor, that you have championed in order
to make sure that businesses are able to get into
our state, take care of any registration
requirements as quickly as possible, and get jobs
in place as quickly as possible. One of the other
side effects of that is that we will be able to
improve compliance among businesses by making sure
that they're meeting all requirements of the
different agencies.

In the property tax oversight program, our
focus is to improve performance and reduce costs
there. We're using better technology and information in order to increase performance there.

In our Capital Improvement Plan, as I mentioned earlier, we are greatly reducing our leased footprint through restacking and combining facilities, and we've projected reduced lease costs of 4.5 million. And over the past five years, we've been able to absorb 6.7 million in increased lease costs.

With that, I respectfully request that you approve this item.

GOVERNOR SCOTT: Very impressive. Is there a motion to approve Item 1?

COMMISSIONER PUTNAM: Governor, in addition to approving the program plans, it also approves the performance contract with Lisa, correct, essentially rehiring Lisa?

GOVERNOR SCOTT: Yes.

COMMISSIONER PUTNAM: I will gladly move the issue and thank you for your service and professionalism that you bring to this agency and to this Cabinet. It's almost an impossible task running the Department of Revenue in terms of all the moving parts, but I think you do it very well, and we appreciate it.
MS. VICKERS: It is absolutely a pleasure. Not too many people would probably say that, but I enjoy every moment of it.

ATTORNEY GENERAL BONDI: We're thrilled to have you.

GOVERNOR SCOTT: I think everybody would say the same thing. Lisa, you do a great job. You've got a great attitude about it. You've got a big job, and you do it with no complaints, with a very positive attitude, and you get great results, so we're very appreciative.

MS. VICKERS: Thank you.

GOVERNOR SCOTT: All right. Is there a second?

CFO ATWATER: Second.

GOVERNOR SCOTT: Okay. Moved and seconded.

Item 1 is approved without objection.

MS. VICKERS: Item 2 is the Department's legislative budget request. This request represents an 8.6 percent reduction over our current year total appropriation. You need to kind of understand that number a little bit. We start out our appropriation always with a difference between what ultimately will be appropriated, because the Legislature will put about $25 million
more into our budget when we're through the process as a result of funding for fiscally constrained counties, so that amount incorporates the fact that later they'll put in about 25 million additional for fiscally constrained counties.

The real reduction there, though, I think is based on the fact that we are coming in on time and on budget with our CAMS system and our implementation early next spring, which will be in this budget year. And so there's a 29 million reduction in nonrecurring funding for the development of CAMS as we bring that project in on time.

The operating budget itself represents about a 1.59 percent increase in total recurring funding, and that's really kind of an accounting shift. The Legislature funded about 52 of our positions last year with nonrecurring dollars with the understanding that we would come back and ask for recurring funding this year, so that's that shift between nonrecurring and recurring. If they're not funded, then we will be deleting additional positions for those 52 because they won't be funded. Over the past five years, we have reduced the number of FTEs in the Department by 400
One of the large issues in this budget is related to a $1.6 million decision to fund the $25 fee that the federal government requires for child support collection cases that have obtained over $500 collection in a year. A few years back when the federal government implemented this fee on our customers, the Legislature decided to pay that fee through government money. And so when we have cases that are collecting more than $500 a year, the Legislature gives us general revenue funding to pay that $25 fee. Well, because of our increased performance, we have more cases that are meeting that $500 threshold, which is increasing our need for additional general revenue to pay that fee.

As part of our cost reduction strategies that we're taking to the Legislature this year, we want to ask them the question of whether they want to continue to pay that fee on behalf of our customers that are using our services. In other states, the actual individual who is receiving the child support collections pays that $25 fee when they meet those threshold amounts.

There are a number of small technology issues in this legislative budget request. Included in
there are provisions for -- to continue with the enterprise decisions to implement the data center consolidation of about $850,000 and statewide email of 166,000.

We request approval of the legislative budget request.

GOVERNOR SCOTT: All right. Commissioner.

COMMISSIONER PUTNAM: I would just point out as part of my continuing public awareness campaign that statewide email consolidation is also costing you more money in addition to all three Cabinet agencies up here; is that correct?

MS. VICKERS: We are a very large agency. We have very high efficiencies in the area of technology because of our size. The email consolidation has increased costs slightly for our agency. We're a little different than everybody else in that we have been on Novell, a very different product. We were going to need to transfer to Microsoft eventually anyway, because it creates a lot of problems in terms of interfacing with other agencies and being able to communicate confidentially with other agencies. So I don't think the impact has been as great on us as it might be on other agencies. But, yes, it does
increase the cost for us.

GOVERNOR SCOTT: All right. Is there a motion on the Department's proposed legislative budget request?

CFO ATWATER: So moved.

GOVERNOR SCOTT: Is there a second?

ATTORNEY GENERAL BONDI: Second.

GOVERNOR SCOTT: Moved and seconded. Any objection?

In my case, Florida law requires the Governor to independently submit budget proposals. Accordingly, I'm abstaining from the vote on this item. Therefore, the record should reflect this item is approved with one abstention.

MS. VICKERS: Thank you.

Item 3 is the Department's legislative concepts. They're largely a resubmission of the concepts submitted last year. That's not really a negative reflection on the concepts. Agency administrative concepts sometimes don't pass in the first year that they're proposed. I always liken them to the tuneup on a car. They're not very exciting. They're the oil change. They're the tuneup. They're usually kind of dry, boring administrative issues, and there's no lack of those
In child support enforcement, a number of concepts are being offered to improve the administration and efficiency of that program. In general tax, the Department is again proposing concepts to improve our enforcement efforts.

New to this package, though, is a concept focusing on software that allows businesses to steal tax revenues. They've actually invented software that you can put on cash registers to create what we used to in the old days call two sets of books and records so that you have one set of records to show the state and another set of records that tells you what your actual amount of business is that's flowing through that cash register.

We have a concept also to provide a reduce and realign of unemployment tax interest rates to be consistent with other taxes. Right now the tax rate for employment tax is 12 percent. This will move it to prime plus 4, which is the same as all the other taxes, to make it more efficient for us to administer that.

We're seeking guidance in calculating the phosphate tax rate from the Legislature, and we
have provisions to conform the Clerk of Courts' electronic remittance provisions.

In property tax oversight, provisions are advanced to improve administration, clarify statutory provisions, and correct statutory references. Concepts are also included to reduce the burden on taxpayers by providing better administration of exemptions.

The package also includes a request that the Legislature consider repealing the four-hour requirement and making changes to provisions discussed at the last Cabinet meeting to ensure that taxpayers are able to reschedule VAB hearings when delays occur in holding a hearing that would create a hardship on the taxpayer.

I know that we have a citizen -- the same citizen that showed up last time has arrived this morning, and I'm not sure -- do you have a comment? And she may want to comment on that provision.

GOVERNOR SCOTT: Okay. Do you want to do that now, or do you want to do it . . .

Good morning, and thank you very much for coming.

MS. ANDERSON: Good morning. Thank you very much. My name is Sheila Anderson. I'm a private
citizen and taxpayer and a realtor, and I represent other taxpayers who appeal their ad valorem assessments.

This four-hour thing going back to the 1960s has no relationship whatsoever to the current composition of the Value Adjustment Boards or how they operate for the majority of taxpayers, so to repeal it is the obvious and urgent thing to do. And I was very disappointed that you even let a legislative staff member tell you that you ought to retain anything in the statute, since this is so overdue. So I thank you for that.

I would like to also add that as a private citizen, there's no item on the agenda for public comments on anything before you of interest to citizens. And it would save a lot of travel around the state, Governor, if you just simply provided that opportunity for people on a regular basis. And I understand your staff is against it, but I don't work for your staff, and I think it would be appropriate for anyone who is a citizen of the state to speak to their elected representatives when they have grievances.

The other thing that I noticed today is that there are no copies of documents that were before
you as the various agencies were reporting to you, and some of that was very interesting. I would like to see how the bond refinancing works on paper as well, because it might affect and give me some ideas on how to manage the resources that I have. And I'm sure other people would like to know more about how public money is being managed. And it sounded very well done, but there was a lot of detail that was not available.

So again, public comments and public documents would be very useful. And to get rid of the four-hour rule would be -- would go a long way to treating taxpayers to the process they're entitled to have.

Thank you.

GOVERNOR SCOTT: Thank you very much. And one thing you might get on is the -- if you stay around this afternoon, there will be a lot of information with regard to how our pension money is invested.

MS. ANDERSON: I appreciate that, but I've got a long ride back to Ocala, and it's not possible. But if it had been here, I would have had the time.

GOVERNOR SCOTT: Thank you.

MS. VICKERS: Thank you. And we would respectfully request that you approve Item 3, our
legislative concepts.

COMMISSIONER PUTNAM: So moved.

GOVERNOR SCOTT: Second?

ATTORNEY GENERAL BONDI: Second.

GOVERNOR SCOTT: Moved and seconded. Item 3 is approved without objection.

MS. VICKERS: Item 4 requests approval to publish and proceed with rulemaking in the following areas: To implement legislative changes in the area of documentary stamp tax, estate tax, communications services tax, the Florida Tax Credit Scholarship Program, and in the area of emergency excise tax; to update -- to do an annual update of our forms in the area of communications services tax, fuel tax, corporate income tax, and insurance premium tax, as well as miscellaneous forms for use tax, solid waste, rental car surcharge, and severance tax. It's the typical annual update that we do to those forms.

The amendments will also provide simplification and clarification in a number of areas and remove obsolete provisions from the law related to the Department's Fax on Demand system, which has been replaced by the availability of forms on our website, and the sunset of an
exemption on machinery and equipment that sunsetted July 1, 2010, and the repeal of the emergency excise tax that's effective on January 1, 2012.

We recommend approval of this item.

GOVERNOR SCOTT: All right. Is there a motion to approve Item 4?

ATTORNEY GENERAL BONDI: Move to approve.

GOVERNOR SCOTT: Is there a second?

CFO ATWATER: Second.

GOVERNOR SCOTT: Moved and seconded. Item 4 is approved without objection.

MS. VICKERS: Thank you. And finally, Item 5 requests approval and authority to adopt Rule 12E-1.0051. This rule is related to child support enforcement and undistributable collections. The purpose of this rule is to provide a method that the Department will use to attempt to locate intended recipients that we are not able to locate for child support distribution, if we're unable to locate the intended recipient, how we will apply those funds to the case. First we would apply the funds if the noncustodial parent has another open case through the Department, and then finally, to return the funds back to the person who contributed those funds if it's undistributable.
This rule was previously presented to you on June 16th, and since that time, the Department has worked with the CFO's office to add a link from the Florida unclaimed property search page to the Department's undistributable child support collection search page.

And we request approval of this item.

GOVERNOR SCOTT: All right. Is there a motion to approve?

CFO ATWATER: So moved.

GOVERNOR SCOTT: Second?

ATTORNEY GENERAL BONDI: Second.

GOVERNOR SCOTT: Moved and seconded. Item 5 is approved without objection.

MS. VICKERS: Thank you.

GOVERNOR SCOTT: Thank you very much.

Statement of Sections 120.54(3)(b) and 120.541, F.S. Impact: No impact.
The Department has reviewed the proposed rules for compliance with Sections 120.54(3)(b) and
120.541, F.S. The proposed rules will not likely have an adverse impact on small business, small
counties, or small cities, and they are not likely to have an increased regulatory cost in excess of
$200,000 within 1 year. Additionally, the proposed rules are not likely to have an adverse
impact or increased regulatory costs in excess of $1,000,000 within 5 years.

What is the Department Requesting? The Department requests final adoption and approval to
file and certify it with the Secretary of State under Chapter 120, F.S., the following proposed
rules:

- Extend the Florida Estate Tax Exemption Period to December 31, 2012 – (Rules 12C-3.0015 and 12C-3.008, F.A.C.)

ATTACHMENT #2

- Severance Taxes
- Insurance Premium Tax
- Corporate Income Tax

**Extend the Florida Estate Tax Exemption Period to December 31, 2012**

*Why are the proposed rules necessary?* The proposed amendments are necessary to reflect the statutory exemption period applicable to the filing of a Florida Estate Tax Return. In 2011, the Legislature extended this exemption through 2012.

*What do these proposed rules do?* The proposed amendments provide that no Florida estate tax return is required to be filed for a decedent who dies, or has died, between January 1, 2005, and December 31, 2012, in accord with Section 1, Chapter 2011-86, L.O.F.

*Were comments received from external parties?* A rule development workshop was scheduled for August 16, 2011, on request. No request was received to hold the scheduled workshop. On September 20, 2011, the Governor and Cabinet approved the Department’s request to publish a Notice of Proposed Rule and to conduct a rule hearing. A rule hearing was held on October 26, 2011. No comments were received.

**Communications Services Tax - Rounding Algorithm; Updates Local Tax Rates; Amend Terminology; Certification of Communications Services Address/Jurisdiction Databases**

*Why are the proposed rules necessary?* One of the proposed amendments is necessary to update the method of rounding as provided by Chapter 2011-120, L.O.F., and to update the local tax
rates applicable to sales of communications services, effective January 1, 2012. Proposed amendments are necessary to amend the terms “resort condominium” and “remote dwelling” to “vacation rentals,” as provided by Chapter 2011-119, L.O.F. Finally, amendments are needed to clarify the requirements that communications services dealers must meet in order to qualify for a higher collection allowance.

**What do these proposed rules do?** The proposed amendments update the method of computing communications services tax to a traditional rounding method; update the local communications services tax rates that will be in effect on January 1, 2012; update terminology used in the rules for sales to residential households; and clarify that the place codes contained in an address database submitted by communications services providers must correlate before the database may be certified by the Department. Communications services providers are only eligible for a higher collection allowance if they use databases certified by the Department. The proposed amendments allow for resubmission of a previously unacceptable database to allow the dealer every opportunity to qualify for the higher collection allowance.

**Were comments received from external parties?** A rule development workshop was scheduled for August 16, 2011, on request. No request was received to hold the scheduled workshop. On September 20, 2011, the Governor and Cabinet approved the Department’s request to publish a Notice of Proposed Rule and to conduct a rule hearing. A rule hearing was held on October 26, 2011. No comments were received.

**Fuel Tax Licenses - Update Annual Tax Rates**

*Why are the proposed rules necessary?* The proposed amendments are necessary to provide consistency between the rules and the Department’s forms for fuel and pollutant tax. Changes were previously made to these forms in response to requests made by the Joint Administrative Procedures Committee. The proposed rule amendments are also needed to provide the procedures for obtaining a refund on fuel taxes paid on diesel fuel provided by s. 206.8745(1), F.S. In addition, changes are necessary to include the annual updates to the state fuel sales tax rate and the local option fuel tax rates, effective January 1, 2012.

*What do these proposed rules do?* The proposed changes amend the rules to include statutory terms and bonding requirements to obtain a Florida fuel or pollutant tax license; provides how to obtain a refund of fuel tax paid on fuel used for commercial fishing purposes or by a vessel engaged in the commercial transportation of persons or property; and updates the fuel tax rates in effect on January 1, 2012.

*Were comments received from external parties?* A rule development workshop was scheduled for August 16, 2011, on request. No request was received to hold the scheduled workshop. On September 20, 2011, the Governor and Cabinet approved the Department’s request to publish a Notice of Proposed Rule and to conduct a rule hearing. A rule hearing was held on October 26, 2011. No comments were received.
Florida Tax Credit Scholarship Program - Eliminate the 75% Credit Limitation; Eliminate Restriction on Rescindment of the Credit; Extend the Carryforward of Unused Tax Credits to Five Years

Why are the proposed rules necessary? The amendments are needed to reflect changes made to the Florida Tax Credit Scholarship Program, effective July 1, 2011, under Chapter 2011-123, L.O.F.

What does this proposed rule do? The proposed rule amendments incorporate the changes to the Florida Tax Credit Scholarship Program effective July 1, 2011.

Were comments received from external parties? A rule development workshop was scheduled for August 16, 2011, on request. No request was received to hold the scheduled workshop. STATE OF FLORIDA
DEPARTMENT OF REVENUE
CHAPTER 12A-19, FLORIDA ADMINISTRATIVE CODE
COMMUNICATIONS SERVICES TAX
AMENDING RULES 12A-19.041 AND 12A-19.100

SUMMARY OF PROPOSED RULES

The proposed amendments to Rule 12A-19.041, F.A.C. (Sales of Communications Services to a Residential Household), change the example of a transient public lodging establishment from “resort dwellings” to “vacation rentals,” consistent with Chapter 509, F.S., as amended by Chapter 2011-119, L.O.F.

The proposed amendments to Rule 12A-19.100, F.A.C. (Public Use Forms), adopt, by reference, changes to forms used in the administration of the communications services tax to clarify provisions regarding place codes contained within a database submitted to the Department for certification, to remove obsolete provisions regarding tax brackets, and to update the local communications services tax rates.

FACTS AND CIRCUMSTANCES JUSTIFYING PROPOSED RULES

Chapter 2011-119, L.O.F., revises the classification of “resort condominiums” and “resort dwellings,” in Chapter 509, F.S., as “public lodging establishments” to “vacation rentals.” The purpose of the proposed amendments to Rule 12A-19.041, F.A.C. (Sales of Communications Services to a Residential Household), is to update “resort dwellings” to “vacation rentals,” as an
example of a transient public lodging establishment consistent with the provisions of Chapter 509, F.S.

Chapter 2011-120, L.O.F., modifies Section 202.16(3), F.S., eliminating the requirement of the Department to provide tax amounts and brackets to communications services dealers and stating the requirement of communications services dealers to compute the state and the local communications services tax based on a rounding algorithm.

Providers of communications services address/jurisdiction databases and vendors of such databases may request that the Department certify their database for accuracy of the address/jurisdictions contained within the database. To apply, service providers and database vendors must submit Form DR-700012 (Application for Certification of Communications Services Database), along with their database containing a combination of FIPS 55 place codes and GNIS Feature Identifier place codes. When the place codes do not correlate, the database is returned to the applicant for correction.

The purpose of the proposed amendments to Rule 12A-19.100, F.A.C. (Public Use Forms), is to: (1) adopt, by reference, updates to Form DR-700012 to clarify that the FIPS 55 place codes and the GNIS Feature Identifier place codes contained within a database submitted for certification must correlate; (2) provide the version of Form DR-700016 that is to be used to report the communications services tax during the specified reporting periods; (3) remove the instructions contained under “Rounding rule,” on Page 20 of Form DR-700016, Florida Communications Services Tax Return (R. 07/11); and (4) update the local communications services tax rates that will be in effect on January 1, 2012, on Form DR-700016, Florida Communications Services Tax Return (R. 01/12).
FEDERAL COMPARISON STATEMENT

The provisions contained in these rules do not conflict with comparable federal laws, policies, or standards.

SUMMARY OF PROPOSED RULES

The proposed amendments to Rule 12-29.002 (Florida Tax Credit Scholarship Program; Participation; Allocation; Carryforward; Rescindment): (1) remove the limitation on the corporate income tax and insurance premium tax credits that were limited to 75% of the tax due after the required deductions; (2) provide that the five-year carryforward period is applicable to all credits approved under the Program for carryforward on or after July 1, 2011, and to all unused carryforward credits that were eligible to be carried forward as of July 1, 2011; (3) remove the limitation that prevented taxpayers who had previously rescinded a tax credit authorized under the Program from obtaining approval to rescind an outstanding tax credit; and (4) remove obsolete provisions.

The proposed amendments to Rule 12-29.003, F.A.C. (Florida Tax Credit Scholarship Program; Applications), adopt, by reference, changes to forms used in the administration of the Program to incorporate the changes made by Chapters 2011-76 and 2011-123, L.O.F.

Applications to carry forward amounts beyond the five-year three-year period will not be accepted by the Department. See paragraph (3)(a) for submitting the application to the Department.

(b) No change.

(c) Within ten days of receipt of the application, the Department will send written correspondence regarding the amount of the credit carryforward, or the reason the carryforward request could not be approved. For excise tax on liquor, wine, and malt beverages, the Division must approve the carryforward before the Department will issue such correspondence. No request will be approved when the application for a credit allocation carryforward is submitted for a period beyond five three years from the year in which the credit allocation was approved.

(d) Examples.

1. Corporate Income Tax Example - A calendar year taxpayer applied for and was approved for a credit allocation against corporate income tax for the year ending December 31, 2011. To carry forward the unused portion of the credit allocation from its tax year ending December 31, 2011, to its tax year ending December 31, 2012, the taxpayer must apply to the Department, specifying the carryforward amount, on or after January 3, 2012. The application must be filed on or before December 31, 2012. If any unused portion of the credit allocation remains, the taxpayer must apply for a carryforward of the unused portion. Any unused carryforward from its tax year ending December 31, 2011, expires on December 31, 2016 2014.

2. Insurance Premium Tax Example - A taxpayer applied for and was approved for a credit allocation against insurance premium tax due for calendar year 2010. To carry forward the
unused portion of the credit allocation that was not taken on the 2010 insurance premium tax return (due March 1, 2011) to the 2011 insurance premium tax return, the taxpayer must apply to the Department, specifying the carryforward amount, on or after January 3, 2011. The application must be filed and approved on or before December 31, 2011. If any unused portion of the credit allocation remains, the taxpayer must apply for a carryforward of the unused portion. Any unused carryforward from its tax year ending December 31, 2010, expires on December 31, 2013.

3. Sales and Use Tax Example - A taxpayer who holds a Sales Tax Direct Pay Permit applied for and was approved for a credit allocation against sales and use tax due to the Department for the state fiscal year 2011-2012. The taxpayer paid the contribution to an eligible nonprofit scholarship funding organization on July 15, 2011, and submitted a copy of the certificate of contribution received from the organization to the Department. The taxpayer’s liability was insufficient to use the entire credit allocation on sales and use tax returns filed with the Department on or before June 30, 2012. To carry forward the unused portion of the tax credit to the 2012-2013 state fiscal year, the taxpayer must apply to the Department, specifying the carryforward amount during the 2012-2013 state fiscal year. The application must be filed and approved, and any approved carryforward must be taken on a sales and use tax return filed on or before June 30, 2013. If any unused portion of the credit allocation remains, the taxpayer must apply for a carryforward of the unused portion to be used during the following state fiscal year. Any unused carryforward from the 2011-2012 state fiscal year expires June 30, 2015.

4. Tax on Oil and Gas Production - The same application periods and credit carryforward periods that apply to a sales and use tax credit allocation apply to a credit allocation against the tax on oil and gas production.

5. Excise Taxes on Liquor, Wine, and Malt Beverages Example - A taxpayer who holds a
liquor license issued by the Division applied for and was approved for a credit allocation against the liquor excise tax for returns due during the state fiscal year 2011-2012. The taxpayer’s liability was insufficient to use the entire credit allocation during that state fiscal year. To carry forward the unused portion of the tax credit to the 2012-2013 state fiscal year, the taxpayer must apply to the Department, specifying the carryforward amount during the 2012-2013 state fiscal year. The application must be filed and approved, and any approved carryforward must be taken on a return filed with the Division, on or before June 30, 2013. If any unused portion of the credit allocation remains, the taxpayer must apply for a carry forward of the unused portion to be used during the following state fiscal year. Any unused carryforward from the 2011-2012 state fiscal year expires June 30, 2017.

(e) No change.

(7) RESCINDMENT OF UNUSED TAX CREDITS.

(a) No change.

(b) An application for rescindment of the unused credit allocation by the Department will not be approved when:

1. The amount of credit allocation requested to be rescinded has been claimed as a credit on a previously filed return; or

2. The taxpayer has had more than one approved rescindment of credit within the last three tax years; or,

2.3. The allocation year is closed for all taxpayers. The allocation period for a calendar year is closed for all taxes and all taxpayers on November 30 of the subsequent calendar year.

The proposed amendments to Rule Chapter 12B-5, F.A.C. (Tax on Motor Fuels, Diesel Fuels, Alternative Fuels, Aviation Fuels, and Pollutants): (1) revise terms to be consistent with the statutory terms “license tax” and “filing fee” for purposes of obtaining an annual Florida fuel tax license; (2) clarify that there is no license fee or license tax for local government users or mass transit systems to obtain a Florida fuel tax license; (3) clarify bonding requirements for licensing of wholesalers of fuel; (4) remove provisions regarding the availability of a refund of tax paid on diesel fuel used in the operations of boats, vessels, or equipment for fishing that are not consistent with the provisions of section 206.8745(1), F.S.; (5) provide the procedures on how to obtain a refund of the fuel taxes paid on diesel fuel used for commercial fishing purposes or by a vessel engaged in the commercial transportation of persons or property consistent with the provisions of section 206.8745(1), F.S.; (6) clarify that diesel fuel used for such commercial purposes is subject to sales tax, plus any applicable discretionary sales surtax; (7) adopt, by reference, updates to the fuel and pollutant tax returns.
FACTS AND CIRCUMSTANCES JUSTIFYING PROPOSED RULES

Section 206.02(2)(c), F.S., requires terminal suppliers, importers, exporters, blenders, biodiesel manufacturers, and wholesalers to pay a $30 license tax to obtain an annual fuel license or to renew an annual fuel license. Similar provisions are provided for carriers and terminal operators to obtain an annual fuel license in sections 206.021(3) and 206.022(2), F.S. Section 206.89(4), F.S., provides that a $5 filing fee is required to obtain a license as a retailer of alternative fuel.

Sections 206.05(1), 206.051, and 206.89(2), F.S., provide that terminal suppliers, importers, exporters, wholesalers, and retailers of alternative fuel are required to post a bond to obtain a Florida fuel license. Section 206.9931(1), F.S., provides bond requirements for applicants applying for a license as an importer or producer of pollutants.

To obtain a Florida fuel license, the licensee is required to maintain a bond sufficient to ensure payment to the state of the amount of the tax, plus any penalties and interest, for which the person may become liable. A wholesaler who has no import or export activity that sells only undyed diesel fuel and that is not authorized by the Department to remit fuel tax to its supplier would have no liability to the state and would not be required to post a bond. Any applicant for a pollutants tax license for the sole purpose of applying for refunds of tax-paid pollutants would not be required to post a bond.

The purpose of the proposed amendments to Rule Chapter 12B-5, F.A.C. (Tax on Motor Fuels, Diesel Fuels, Alternative Fuels, Aviation Fuels, and Pollutants), is to: (1) correct the use of the term “license fee” to “license tax” and to correct the use of the term “registration fee” to “filing fee,” consistent with Sections 206.02(2)(c), 206.021(3), 206.022(2), and 206.89(4), F.S., as requested by the Joint Administrative Procedures Committee; (2) update provisions regarding
bonding requirements consistent with Sections 206.05(1), 206.051, 206.89(2), 206.9931(1), F.S.;
and (3) adopt, by reference, changes to the fuel and pollutant returns to include the annual
updates to the state fuel sales tax rate and the local option tax rates effective January 2012.

Section 206.8745(1), F.S., provides that any purchaser who purchases tax-paid diesel fuel
and has paid the fuel taxes to the seller may claim a refund of the fuel taxes paid, as provided in
Section 215.26, F.S., if the fuel is used for an exempt purpose as provided in section 206.874(3),
F.S. The purpose of the proposed amendments to Rule 12B-5.130, F.A.C. (Refunds), is to amend
the rule to reflect the provisions of Sections 206.874(3) and 206.8745(1), F.S.

AMENDING RULES 12A-1.097 AND 12A-1.107

REPEALING 12A-1.0142

SUMMARY OF PROPOSED RULES

The proposed amendments to Rule 12A-1.097, F.A.C. (Public Use Forms), adopt, by reference, updates to Form DR-1 (Florida Business Tax Application), changes to sales and use tax returns, and updates to direct pay permits issued by the Department to qualified taxpayers.

The proposed amendments to Rule 12A-1.107, F.A.C. (Enterprise Zone and Florida Neighborhood Revitalization Programs), remove provisions regarding the obsolete Fax on Demand System.

FACTS AND CIRCUMSTANCES JUSTIFYING PROPOSED RULES

The Department of Environmental Protection Florida Renewable Energy Technologies Sales Tax Program, as provided in Section 212.08(7)(ccc), F.S., established by Section 9, Chapter 2008-227, L.O.F., expired July 1, 2010. Section 1, Chapter 2011-3, L.O.F., removes the
obsolete statutory section from the Florida Statutes. The purpose of the proposed repeal of Rule 12A-1.0142, F.A.C. (Refund of Tax Paid on Purchases of Equipment, Machinery, and Other Materials for Renewable Energy Technologies), is to remove obsolete provisions regarding the Department’s administration of the Program.

Form DR-1 (Florida Business Tax Application) has been updated and reorganized to simplify the registration process for Florida’s taxes administered by the Department and to obtain information from taxpayers that will allow the Department to provide information regarding Florida's tax laws to those taxpayers impacted by the law. In addition, the use of the sales and use tax returns is currently limited to reporting tax for a single calendar year. The purpose of the proposed amendments to Rule 12A-1.097, F.A.C. (Public Use Forms), is to: (1) adopt the changes to Form DR-1 (Florida Business Tax Application); (2) consolidate and simplify instructions for sales and use tax returns; and (3) remove the limitation of the use of the tax return to a single calendar year.

Prior to posting forms and other documents on the Department’s website, taxpayers were able to obtain forms and documents by fax, using the Department’s Fax on Demand System. With forms and documents readily available on the website, the Fax on Demand System has been discontinued. The purpose of the proposed rule amendments to Rule 12A-1.107, F.A.C. (Enterprise Zone and Florida Neighborhood Revitalization Programs), is to remove provisions regarding the obsolete Fax on Demand System.

FEDERAL COMPARISON STATEMENT

(a) A tax at the rate of 1.75 percent of the gross amount of receipts for insurance premiums and assessments shall be applied to the following types of policies:

1. through 2. No change.

3. Reciprocal insurance under Chapter 629 Section 629.5011, F.S.

4. through 9. No change.

(b) No change.

(c) Effective July 1, 1988, a tax at the rate of 1.6 percent of the gross premiums, contributions, and assessments received by the following shall be applied:

1. Commercial self-insurance fund under Section 624.475, F.S.

2. Group self-insurance fund under Section 624.4621, F.S.

1. Medical Malpractice Self-Insurance under Section 627.357, F.S.

(a) The installment of the estimated premium tax due shall not be less than 90 percent of the amount finally shown to be due in any quarter, as evidenced by the annual report, without deductions for any credits. Effective January 1, 1993, the 90 percent shall be based on the actual tax paid for that year, as evidenced by the annual return, after allowable credits. The 90 percent will be determined by computing the gross tax due for each quarter, direct premiums written times the tax rate, less 25 percent of the allowable credits as evidenced by line 2 of the first page of the annual return filed for that year times 90 percent. However, the taxpayer has the option of paying, in each installment, 27 percent of the amount of annual tax reported, after allowable credits, on his return for the previous year without penalty or interest applying. If a return was not filed for the previous year, the installments must meet the 90 percent requirement. If the tax is not paid in this manner, a 10 percent penalty shall be imposed on each underpayment or late payment of tax due and payable for that quarter. If the installment is based on 27 percent of the amount of the annual tax reported on the return for the preceding year and the installment payment is remitted to the Department after the due date, the installment shall be based on the 90 percent requirement instead of the 27 percent method. Any underpayment or delinquent payment shall be subject to a penalty of 10 percent, and interest from the due date until paid.

(b) through (c) No change.

If, however, the insurer extended the due date of the Florida corporate income tax return to June 1, 2014, and did not file and pay the return on or before December 31, 2013, the amount of tax due on the return is included in the computation of the corporate income tax and emergency excise tax credit on its 2014 insurance premium tax return (Form DR-908, which is due March 1, 2015).

3. If a taxpayer is required to amend its corporate income tax liability under Chapter 220, F.S., the taxpayer shall amend its corresponding insurance premium tax return for the tax year in
which it claimed, or was entitled to claim the credit provided in Section 624.509(4), F.S., for the
corporate income tax paid for that tax year. The taxpayer shall file an amended insurance
premium tax return and pay additional tax due, if any, or claim a refund, if any, as provided in
Section 624.50921, F.S.

(b) Salaries. Fifteen percent of the amount paid after June 30, 1988, in salaries by the
insurer to employees located or based in Florida may be credited against the net tax imposed by
Section 624.509, F.S.

b. The employees are located or based in Florida; and

c. The insurer claiming the credit is the employer, as defined in Section 443.036(17), F.S.,

salary tax credit is limited by the 65 percent limitation, the excess of the salary tax credit that was available and exceeded the 65 percent limitation may be transferred to any insurer that is a member of that insurer’s affiliated group if such excess salary tax credit is related to salaries and wages of employees whose place of employment is located within an enterprise zone created pursuant to Chapter 290, F.S. The amount of such excess salary tax credit transferred to all affiliates can not exceed 25 percent of such excess salary tax credit. An affiliated group of corporations that participates in a concurrent common paymaster arrangement as defined in Section 443.1216, F.S., is not eligible to use this provision. Any such transferred credits are subject to the same provisions and limitations set forth in Part IV, Chapter 624, F.S.

(c) Assessments Credited Against the Tax.

1. No change.

2.a. Insurers Effective with the tax return filed for the 1997 taxable year, insurers who have paid an assessment to the Florida Life and Health Insurance Guaranty Association (Association) may claim a credit for part of such assessment as provided in Section 631.72, F.S. Any credits not taken or utilized when available cannot be carried forward.

b. through c. No change.

(d) No change.
