## INTENDED USERS

This production guide is intended for Florida property appraisers and their staff as an aid in preparing and producing assessment files for submission to the Florida Department of Revenue (DOR) Property Tax Oversight Program as sections 193.114 and 193.1142, F.S., require. This document is not intended for any other users.

## INTRODUCTION

Section 1 of the production guide includes the data fields and specifications of the Name–Address–Legal (NAL) data file as s. 193.114, F.S., requires. The department requires a comma delimited (CSV) file format. Submit the NAL by the following dates: April 1 as part of the sales submission; July 1 as part of the preliminary submission; and after certification to the tax collector for the certified final submission. If the VAB proceedings are prolonged, the property appraiser submits a second certified final at the end of the VAB proceedings.

Section 2 contains the data fields and specifications of the Sales Data File (SDF). The property appraiser must submit an SDF at the same time as an NAL. The department processes the NAL and SDF files as a paired set. The SDF contains all sales for the preceding year and current calendar year up to approximately 30 days before the time of submission. Like the NAL, submit the SDF in a CSV file format.

Section 3 contains the data fields and specifications of the Name–Address–Personal (NAP) tangible personal property data file. The property appraiser submits this file in a CSV file format, and it is part of the preliminary and all final submissions. An NAP is not required for the April 1 sales submission.

This guide's addenda include a tabular version of the NAL, SDF, and NAP data requirements.

Changes from the 2017 Production Guide are in red text.

## Specifications for Comma Delimited Text File

1. The file does not include field names or header row.
2. Each line contains one record.
3. Commas separate field values.
4. Quotation marks enclose any text fields containing a comma (“,”).

Example: “Smith, Jones and Smith”

- Enclose the following **NAL** fields in quotation marks:

Owner’s name	Short Legal Description
Street Address line 1	Physical Location line 1
Street Address line 2	Physical Location line 2
City	Physical Location City
State or Country	Transfer Owner

- Enclose the following **NAP** fields in quotation marks:

Owner’s Name	Physical Location of Property
Owner’s Mailing Address	Physical Street Address
City	Physical City
State or Country	

- All existing quotation marks (“) in the text string must be paired or converted to a double quotation mark (“”).

Example: “James, “R” Smith” should be converted to “James, ““R”” Smith”

Example: “The NW1/4 of the NW1/4 and the southern 328’ 8” of” should be converted to “The NW1/4 of the NW1/4 and the southern 328’ 8”” of”

If the end of the legal description stopped at 328’ 8” in the second example above, the conversion would be “The NW1/4 of the NW1/4 and the southern 328’ 8””

5. Separate the fields for multiple exemptions with semicolons between exemption code(s) and value(s). Separate the end of the field by a comma.

NAL Example: ..., 01;25000;02;25000;34;500,...

NAP Example: ...,J;15268;M;25000,...

## FILE NAMING CONVENTION

Each file the property appraiser submits to the department should be in the prescribed format with the correct naming convention. The naming convention for all files contains six parts:

**Part 1 – File Type:** This is a three-letter code designating the file type. For the Name-Address-Legal file, the code is NAL; for the Sales Data File, the code is SDF; and for the Name-Address-Personal (personal property) file, the code is NAP.

**Part 2 – Submission Type:** This is a one-letter code designating the submission type. This code is the same for all files in each submission.

Code	Submission Type	Date	Notes
S	Sales	April 1	
P	Preliminary	July 1	
F	Final	After Certification	
A	Pre-In-Depth Conference	TBD	Applicable only to in-depth counties with appraisal samples
T	Test		PTO accepts test submissions at any time

**Part 3 – County Number:** This is the two-digit county number the department assigned to the county. These are listed in Field 1 (page 6) of this guide.

**Part 4 – Assessment Year:** This is the two-digit code designating the assessment year. Each assessment cycle begins with the April 1 sales submission and concludes with the submission of the first or second certified final submission, even if the assessment cycle goes into the next calendar year. For the 2018 assessment cycle, the two-digit code would be “18.”

**Part 5 – Submission Number:** This is a two-digit code designating the file’s submission number. This number is correlated to the file and submission type. For any initial submission, the entry is “01.” Each subsequent submission of a particular file type (NAL, SDF, NAP, etc.) and specific submission cycle (S, P, A, F, or T) should increase by one. For example, if a county sends an initial certified final NAL, the submission number is “01.” If the same county resubmitted the NAL, the submission number would change to “02” (same file type, same submission type). If that county then sends a second certified final NAL, the submission number would change to “03,” because it is still the same file type and same submission type. However, if the county sent a test NAL submission instead, the submission number would be “01,” assuming the county had not sent a previous test submission earlier in the year.

**Part 6 – File Extension:** Counties should submit every file as a text file with a “.TXT” extension at the end of the file name.

All alpha characters in the file name (file type and submission type), as well as the file extension, should be CAPITALIZED. The correct file name formatting of a 2018 NAL-SDF

matched set for an April 1 sales submission for Washington County would be NALS771801.TXT and SDFS771801.TXT.

Because the department processes the NAL and SDF files as a paired set, the counties must resubmit both the NAL and SDF files with the same submission number when resubmitting a corrected file, even if only one of the two files needed a correction.

## Name-Address-Legal

### (NAL)

**Field 1 - County Number**

This entry should reflect the unique two-digit number assigned to each county for identification purposes. See the list below.

**This is a fixed-length numeric field that requires a two-digit entry.**

County Numbers			
County #	County Name	County #	County Name
11	Alachua	45	Lake
12	Baker	46	Lee
13	Bay	47	Leon

## Field 2 - Parcel Identification Code

This entry reflects a unique code applied to each parcel. It should be based on a parcel coding system applied uniformly throughout the county.

**This is a variable-length alphanumeric field that can contain up to 26 characters.**

## Field 3 - File Type

This entry reflects the file (roll) type.

**This is a fixed-length alphabetical field that requires the one-character entry “R” for the NAL file.**

## Field 4 - Assessment Year

This entry reflects the current assessment year.

**This is a fixed-length numeric field that requires a four-digit entry.**

## Field 5 - DOR Land Use Code

This entry reflects the current DOR Use Codes. If a parcel has two or more land uses, this code should represent the parcel’s predominant use.

**Note:** Header records should be designated on an incoming NAL file in the DOR use code field. The inclusion of either an “H” or an “N” in this three-character field indicates that this record is a reference parcel. The alpha character (h or n) is accepted in either lower or upper case.

**This is a fixed-length numeric field that requires a three-digit entry.** Current acceptable DOR Use Codes are below.

<u>DOR Land Use Codes</u>	
<b>Residential</b>	
000	Vacant Residential – with/without extra features
001	Single Family
002	Mobile Homes
003	Multi-family - 10 units or more
004	Condominiums
005	Cooperatives
006	Retirement Homes not eligible for exemption
007	Miscellaneous Residential (migrant camps, boarding homes, etc.)
008	Multi-family - fewer than 10 units
009	Residential Common Elements/Areas
<b>Commercial</b>	
010	Vacant Commercial - with/without extra features
011	Stores, one story
012	Mixed use - store and office or store and residential combination
013	Department Stores

<b><u>DOR Land Use Codes</u></b>	
014	Supermarkets

098	Centrally assessed
<b>Non-Agricultural Acreage</b>	
099	Acreage not zoned agricultural - with/without extra features

### Field 6 - Appraiser Defined Land Use Code

This entry is reserved for any county that uses additional internal land use codes.

**This is a fixed-length numeric field that requires a two-digit entry. If the county does not use additional internal land use codes, then leave this field blank.**

**Note:** DOR may request a description of these codes if this field is populated.

### Field 7 - Special Assessment Code

This entry reflects a code indicating the type of special assessment applicable to the parcel. The property appraiser may continue to use any existing internal codes, provided they are translated to the following when the property appraiser submits them to the department.

**This is a fixed-length numeric field that requires a one-digit entry. If an entry is not applicable, leave blank.**

<b>Special Assessment Codes</b>	
<b>Code</b>	<b>Definition</b>
1	Pollution Control Device(s)
2	Land subject to a conservation easement, environmentally endangered lands, or lands used for outdoor recreational or park purposes when land development rights have been conveyed or conservation restrictions have been covenanted
3	Land subject to a building moratorium

### **Field 8 - Total Just Value**

This entry reflects the total just value (land just value plus building value plus special feature value) of the parcel.

Total Just Value should equal the sum of all NAL just value fields (fields 15, 17, 19, 21, 23, 25, 27, 29, and 31).

**This is a variable-length numeric field that can contain up to 12 digits.**

### **Field 9 - Change in Just Value Between Final Submission(s) and Approved Preliminary File for Same Assessment Cycle - (FINAL Submissions Only)**

Use this field on the final and post-VAB final assessment rolls when a parcel's just value has changed from the department-approved preliminary assessment roll for the same assessment date. This field should reflect the change in just value between the two assessment rolls.

This field can contain either a positive (increase in just value) or negative (reduction in just value) number. For a reduction in just value, place a minus sign (-) before the amount of the change. For a reduction of \$1,250 the appropriate entry would be -1250.

If the just value has not changed between the preliminary and final rolls with the same assessment date, leave this field blank.

**Do not list the following value changes in this field:**

- Value changes because of parcel splits, combines, and new parcels
- Parcels that changed between -\$100 and \$100

**Note:** Entries in this field should appear only on the first certified final assessment roll and/or the second certified post-VAB final assessment roll.

**This is the only field on the NAL file where a negative number is a valid entry. This is a variable-length numeric field that can contain up to 12 digits.**

### **Field 10 - Code for Change in Just Value - (FINAL Submissions Only)**

This entry reflects the reason for a change (or most substantial change) in just value from the approved preliminary tax file.

Entries in this field should appear only on the initially certified final tax file and/or the second certified (post-VAB) final tax file. For any non-final submission, this field should be blank.

**This is a fixed-length numeric field that requires a two-digit entry. If an entry is not applicable, leave blank.**

Just Value Change Codes	
Code	Definition
01	Value Adjustment Board (VAB) change
02	Court required change
03	Revised valuation by a property appraiser because of receipt or discovery of additional information relating to the physical characteristics of the property after a taxpayer has filed a VAB petition but before VAB has issued a ruling
04	Revised valuation by a property appraiser because of receipt or discovery of additional information relating to the physical characteristics of the property without a filed VAB petition
05	Revised valuation by a property appraiser because of continued analysis, receipt, or discovery of additional information relating to the property (other than its physical characteristics) after a taxpayer has filed a VAB petition but before the VAB has issued a ruling
06	Revised valuation by a property appraiser because of continued analysis, receipt, or discovery of additional information relating to the property (other than its physical characteristics) without a filed VAB petition

### Field 11 – School District Assessed Value

This entry reflects the total assessed value for school purposes. School District Assessed Value is the Total Assessed Value.

The difference between Total Just Value and School District Total Assessed Value can be from:

- Homestead Assessment Differential: Just Value Minus Capped Value (s. 193.155, F.S.)
- Land Classified Agricultural (s. 193.461, F.S.)
- Historic Property Used for Commercial Purposes (s. 193.503, F.S.)
- Historically Significant Property (s. 193.505, F.S.)
- Working Waterfront Property (Art. VII, s.4(j), State Constitution)
- Land Classified and Used for Conservation Purposes (s. 193.501, F.S.)
- Disabled Veterans' Homestead Discount (s. 196.082, F.S.)
- Homestead Assessment Reduction for Parents or Grandparents (s. 193.703, F.S.)

School District Total Assessed Value **cannot be less than** the sum of fields 16, 18, 20, 22, 24, 26, 28, 30, and 32.

**This variable-length numeric field can contain up to 12 digits.**

### Field 12 – Non-School Assessed Value (County)

This entry reflects the assessed value for non-school purposes and will be less than the School District Total Assessed Value in field 11. The Non-School Total Assessed Value (County) is the School District Total Assessed Value minus reductions that apply only to non-school value.

These reductions can be from:

- Homestead Assessment Differential: Just Value Minus Capped Value (s. 193.155, F.S.)
- Non-homestead Residential Property Differential: Just Value Minus Capped Value (s. 193.1554, F.S.)
- Certain Residential and Non-Residential Real Property Differential: Just Value Minus Capped Value (s. 193.1555, F.S.)
- Land Classified Agricultural (s. 193.461, F.S.)
- Historic Property Used for Commercial Purposes (s. 193.503, F.S.)
- Historically Significant Property (s. 193.505, F.S.)
- Working Waterfront Property (Art. VII, s.4(j), State Constitution)
- Land Classified and Used for Conservation Purposes (s. 193.501, F.S.)
- Disabled Veterans' Homestead Discount (s. 196.082, F.S.)
- Homestead Assessment Reduction for Parents or Grandparents (s. 193.703, F.S.)

Non-School Total Assessed Value (County) **should equal** the sum of fields 16, 18, 20, 22, 24, 26, 28, 30, and 32.

**This variable-length numeric field can contain up to 12 digits.**

### **Field 13 – School District Taxable Value**

This entry reflects the taxable value for school purposes. School district taxable value should be based on the school assessed value reduced by statewide exemptions, such as homestead, religious, charitable, educational, widow, widowers, and conservation exemptions in Chapter 196, F.S.

**Note:** School District Taxable Value should not include subtractions for the additional homestead exemption or local option exemptions, which are applicable only to the county or municipality adopting the exemption.

**This variable-length numeric field can contain up to 12 digits.**

### **Field 14 – Non-School Taxable Value (County)**

This entry reflects the taxable value for county purposes and should be less than the School District Taxable Value in field 13.

Non-School Taxable Value (County) should be based on the Non-School Total Assessed Value (County) reduced by the new additional homestead exemption and local option exemptions, which are applicable only to the county (not municipality) adopting the exemption.

**Note:** Non-School Taxable Value (County) should not include subtractions of any local option exemptions municipalities have adopted.

**This variable-length numeric field can contain up to 12 digits.**

## **JUST AND ASSESSED HOMESTEAD, NON-HOMESTEAD, AND CLASSIFIED USE VALUES (FIELD 15 THROUGH FIELD 89)**

Fields 15 through 32 provide detail on just value and non-school assessed value. The sum of just values should equal total just value in field 8. The sum of assessed values should equal total non-school assessed value in field 12.

### **Field 15 - Homestead Just Value**

This entry reflects the just value of only the portion of the property that is a homestead. This is the same portion that would be subject to the Save Our Homes assessment increase limitation.

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

### **Field 16 - Homestead Assessed Value**

This entry reflects the assessed value of only the portion of the property that is a homestead. The difference between homestead just value and homestead assessed value should be the difference solely because of the Save Our Homes assessment increase limitation.

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

### **Field 17 - Just Value for Non-homestead Residential Property**

This entry reflects the just value of only the portion of the property that is non-homestead residential property (DOR Use Codes: 000, 001, 002, 004, 005, and 008) under s. 193.1554, F.S.

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

### **Field 18 - Assessed Value for Non-homestead Residential Property**

This entry reflects the assessed value of only the portion of the property that is non-homestead residential property (DOR Use Codes 000, 001, 004, 005, and 008) under s. 193.1554, F.S.

The difference between the Just Value for Non-Homestead Residential Property and Assessed Value for Non-Homestead Residential Property should be the difference solely because of the 10 percent assessment increase limitation.

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

### **Field 19 - Just Value for Certain Residential and Non-residential Property**

This entry reflects the just value of only the portion of the property that is certain residential or non-residential property under s. 193.1555, F.S. (This includes all residential DOR Use Codes **except** 000, 001, 002, 004, 005, and 008).

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

### **Field 20 - Assessed Value for Certain Residential and Non-residential Property**

This entry reflects the assessed value of only the portion of the property that is certain residential or non-residential property under s. 193.1555, F.S. (This includes all residential DOR Use Codes **except** 000, 001, 002, 004, 005, and 008).

The difference between the Just Value for Certain Residential and Non-residential Property and Assessed Value for Certain Residential and Non-residential Property should be the difference solely because of the 10 percent assessment increase limitation.

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

### **Field 21 - Just Value of Land Classified Agricultural**

This entry reflects the just value of only the portion of property that is classified agricultural (land value only) under s. 193.461, F.S.

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

### **Field 22 - Assessed Value of Land Classified Agricultural**

This entry reflects the assessed value of only the portion of property that is classified agricultural under s. 193.461, F.S. The difference between the agricultural just value and the agricultural assessed value should be the difference solely because of the agricultural classification (land value only).

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

### **Field 23 - Just Value of Land Classified as High-water Recharge**

This entry reflects the just value of only the portion of the property that is classified as high-water recharge (land value only) under s. 193.625, F.S.

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

### **Field 24 – Assessed Value of Land Classified as High-water Recharge**

This entry reflects the assessed value of only the portion of the property that is classified as high-water recharge under s. 193.625, F.S. The difference between the high-water recharge just value and the high-water recharge assessed value should be the difference solely because of the high-water recharge classification (land value only).

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

### **Field 25 - Just Value of Land Classified as Conservation**

This entry reflects the just value of only the portion of the property that is classified under s. 193.501, F.S., conservation just value (land value only). Entries in this field should include land used for conservation purposes, classified and assessed under the amendment to s. 4(b), Art. VII of the Florida Constitution.

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

### **Field 26 - Assessed Value of Land Classified as Conservation**

This entry reflects the assessed value of only the portion of the property that is classified under s. 193.501, F.S. The difference between the conservation just value and the conservation assessed value should be the difference solely because of the conservation classification (land value only). Entries in this field should include land used for conservation purposes, classified and assessed under the amendment to s. 4(b), Art. VII of the Florida Constitution.

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

### **Field 27 - Just Value of Historic Property Used for Commercial Purposes**

This entry reflects the just value of only the portion of the property that is classified as historic property used for commercial purposes under s. 193.503, F.S. Enter the value if either the county or the municipal government adopted the classification.

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

### **Field 28 - Assessed Value of Historic Property Used for Commercial Purposes**

This entry reflects the assessed value of only the portion of the property that is classified as historic property used for commercial purposes under s. 193.503, F.S. Enter the value if either the county or the municipal government adopted the classification.

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

### **Field 29 - Just Value of Historically Significant Property**

This entry reflects the just value of only the portion of the property that is classified as historically significant under s. 193.505, F.S. Enter the value if the county government adopted the classification.

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

### **Field 30 - Assessed Value of Historically Significant Property**

This entry reflects the assessed value of only the portion of the property that is classified as historically significant under s. 193.505, F.S. Enter the value if the county government adopted the classification.

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

### **Field 31 - Just Value of Working Waterfront Property**

This entry reflects the just value of only the portion of the property that has a reduced assessment because it is a working waterfront under s. 4(j), Article VII of the State Constitution.

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

### **Field 32 - Assessed Value of Working Waterfront Property**

This entry reflects the assessed value of only the portion of the property that has a reduced assessment because it is a working waterfront under s. 4(j), Article VII of the State Constitution.

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

### **Field 33 - New Construction Just Value**

This entry reflects just value of new construction. New construction should include improvements new to the parcel, even though they may have been moved from another parcel, e.g., an existing mobile home moved to the parcel.

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

### **Field 34 - Deletion of Improvements to Real Property Resulting in Reduction in Just Value**

This entry reflects the reduction in just value from removing improvements from the property. Enter as a positive number.

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

### **Field 35 - Parcel Split/Combine Flag**

This entry is a five-digit code denoting whether the parcel was split or combined since the previous year's assessment roll.

The first digit reflects whether the action was a split or combination. Enter "1" if the parcel was split since the previous year's assessment roll. Do not code new parcels unless they split again in the same year. Enter "2" if the parcel is the combination of two or more parcels since the previous year's assessment roll. The remaining four characters reflect the two-digit month and two-digit year of occurrence. All five digits, including the month, are required.

#### **Examples:**

For a split that occurred in April 2017, the proper code would be 10417.

For a combination that occurred in June 2017, the proper code would be 20617.

**This is a fixed-length numeric field that requires a five-digit entry. If not applicable, leave blank.**

### **Field 36 - Disaster Code**

This entry is reserved for reporting when a natural disaster has affected the value of a large number of parcels and might affect the department's summary statistics for the county. The department would use it to analyze the effects of the disaster on the assessment statistics, similar to the analyses the department conducted for many counties after the 2004 and 2005 hurricanes. Property appraisers should contact the department before using this code.

**This is a fixed-length numeric field that requires a one-digit code that the Department of Revenue will designate. If not applicable, leave blank.**

### **Field 37 - Disaster Year**

This entry is reserved for reporting when a natural disaster has affected the value of a large number of parcels and might affect the department's summary statistics for the county. The department would use it to analyze the effects of the disaster on the assessment statistics, similar to the analyses the department conducted for many counties after the 2004 and 2005 hurricanes. Property appraisers should contact the department before using this code.

**This is a fixed-length numeric field that requires a four-digit code (disaster year) that the Department of Revenue will designate. If not applicable, leave blank.**

### Field 38 - Land Value

This entry is required for all properties except condominiums, cooperatives, and homeowners associations' properties. Enter the just value of land for all property except property classified as agricultural. For classified agricultural property, enter the assessed value.

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable (e.g., condominiums), leave blank.**

### Field 39 - Land Unit Code

This entry indicates the unit of measurement that is the basis of assessment of the land.

This entry is required for all properties except condominiums, cooperatives, and properties owned by homeowners associations.

**All parcels with values indicated in field 38 (Land Value) also require an appropriate entry in this field. This is a fixed-length numeric field that requires a one-digit entry. If not applicable, leave blank.**

Land Unit Codes	
Code	Measurement Method
1	per acre
2	per square foot
3	per front foot or per effective front foot (all lots with typical depth)
4	per front foot or per effective front foot (all lots with non-typical depth)
5	per lot or tract
6	combination of any of the above

### Field 40 - Number of Land Units

This entry reflects the number of land units that is the basis of assessment of the land. The entries in this field should directly correlate to the entries in field 39 (Land Unit Code).

This entry is required for all properties except condominiums, cooperatives, and properties owned by homeowners associations.

**All parcels having values indicated in field 38 (Land Value) also require an appropriate entry in this field. This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

- If code 1 is indicated in field 39, enter the number of acres (as a whole number, which will be assumed to be a two-decimal place entry, or as a two-decimal place entry).

NOTE: Only when field 39 has a code 1 is a decimal entry permitted in field 40. For all other entries in field 39 (codes 2–6), the corresponding entry in field 40 must be a whole number.

- If code 2 is in field 39, enter the number of square feet (whole number).
- If code 3 is in field 39, enter the number of front feet or effective front feet (whole number).
- If code 4 is in field 39, enter the number of front feet or effective front feet (whole number).
- If code 5 is in field 39, enter the number of lots or tracts (whole number).
- If code 6 is in field 39, leave blank.

### Field 41 - Land Square Footage

This entry reflects the equivalent square footage of the site regardless of the information entered in fields 39 and 40. All entries should be whole numbers. This entry is required for all properties except condominiums, cooperatives, and properties owned by homeowners associations.

**All parcels with a value indicated in field 38 require an appropriate entry in this field. This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

### Field 42 - Improvement Quality

This entry reflects general overall improvement quality of the predominate structures(s) on the property. The property appraiser can use the Marshall and Swift/Marshall Valuation Service, other cost manuals, or appraisal/construction textbooks to establish general guidelines for improvement quality. However, ratings should be consistent statewide as to what is average as a benchmark. Ratings should reflect the average for the data source, not the average structure in your county.

This entry is required for all improved land use codes that do not have the predominate structure valued as a special feature.

**This is a fixed-length numeric field that requires a one-digit entry. If not applicable, leave blank.**

Improvement Quality Codes	
Improvement Quality	Accepted Numeric Code
Minimum/Low Cost	1
Below Average	2
Average	3
Above Average	4
Excellent	5
Superior	6

### **Field 43 - Construction Class**

This entry reflects the general overall construction class of the predominate structures(s) on the property. The ratings are described in the Marshall Valuation Service Manual – Section 1. Convert the alpha codes in the manual to the following numeric codes.

This entry is required for all improved commercial, industrial, governmental, institutional, and multi-family (greater than 10 units) use codes.

**This is a fixed-length numeric field that requires a one-digit entry. If not applicable, leave blank.**

<b>Construction Class Codes</b>		
<b>Improvement Construction Class</b>	<b>Marshall Valuation Service Codes</b>	<b>Accepted Numeric Code</b>
Fireproof Steel	A	1
Reinforced Concrete	B	2
Masonry	C	3
Wood (include steel studs)	D	4
Steel Frame/Incombustible Walls/Roof	S	5

### **Field 44 - Effective Year Built**

This entry reflects the effective year built of the predominate structures(s) on the property.

**This entry is required for all improved land use codes.**

**This is a fixed-length numeric field that requires a four-digit entry (year). If not applicable, leave blank.**

### **Field 45 - Actual Year Built**

This entry reflects the actual year built of the predominate structures(s) on the property.

**This entry is required for all improved land use codes.**

**This is a fixed-length numeric field that requires a four-digit entry (year). If not applicable, leave blank.**

### **Field 46 - Date of Last Physical Inspection**

This field should reflect the date of last physical inspection or the date of image technology inspection of the property and is required for all land use codes.

The correct entry is a four-digit code reflecting the month and year of inspection. Enter a two-digit code for month and a two-digit code for year (e.g., January 2017 would be 0117).

**This entry is required for all land use codes.**

**This is a fixed-length numeric field that requires a four-digit entry.**

#### **Field 47 - Total Living or Usable Area**

This entry reflects the total effective area of all improvements on the property (excluding improvements classified as special features). This would be the total of all floors on any multi-story building and the total of all property record cards having the same unique parcel number. This entry should be in square feet.

**This entry is required for all improved land use codes.**

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable, leave blank.**

#### **Field 48 - Number of Buildings**

This entry reflects the total number of buildings for each unique parcel number (excluding improvements classified as special features).

**Examples:** For an office complex with 15 office buildings, enter 15. For a single-family residential structure enter 1. For individual condominium and cooperative units, leave blank. If a parcel ID reflects the condo association ownership, then enter the number of buildings containing the individual units (similar to an apartment complex).

**This entry is required for all improved land use codes.**

**This is a variable-length numeric field that can contain up to four digits. If not applicable, leave blank.**

#### **Field 49 - Number of Residential Units**

This entry reflects the total number of residential units on the parcel.

**Examples:** For an apartment complex with 200 residential units, enter 200. For individual condominium units, enter 1. For an onsite manager's residence on a commercial property, enter 1. For transitory residential structures, such as hotels/motels and dormitories, leave blank.

**This entry is required for all improved land use codes that indicate a residence.**

**This is a variable-length numeric field that can contain up to four digits. If not applicable, leave blank.**

#### **Field 50 - Special Features Code**

This entry reflects special features assigned a just value for the parcel and should be categorized according to the special feature code list below. Submit a specific code only once. If a code has multiple special features, then sum the individual values into one total for that code and submit it as one code with one corresponding summarized value.

The format in the commas delimiting this field is the special feature code, followed by a semicolon, followed by the special feature just value, followed by a semicolon for each category of special feature valued for the parcel.

**Example:** ...,R1;7000;C2;13000;C5;2000,...

**Note:** There are no special feature codes for single-family residential condominiums and single-family residential co-operatives. Include these improvements in the improvement value.

**This is a variable-length alphanumeric field that must end with a comma. If not applicable, leave blank.**

**Field 51 – Owner’s Name**

This entry reflects the primary owner’s name.

**This is a variable-length alphanumeric field that can contain up to 30 characters.**

**Field 52 - Owner’s street address line 1**

This entry reflects the primary owner’s street or P.O. box mailing address.

**This is a variable-length alphanumeric field that can contain up to 40 characters.**

**Field 53 - Owner’s street address line 2**

This entry reflects additional space if needed for the primary owner’s mailing address

**This is a variable-length alphanumeric field that can contain up to 40 characters. If not applicable, leave blank.**

#### **Field 54 – Owner’s city**

This entry reflects the city of the primary owner’s mailing address. Only the city name should appear in this field.

**This is a variable-length alphanumeric field that can contain up to 40 characters.**

#### **Field 55 - Owner’s state or country**

This entry reflects the state, territory, or country of the primary owner’s mailing address. Only a state, territory, or country should appear in this field.

**This is a variable-length alphabetical field that can contain up to 25 characters.**

#### **Field 56 – Owner’s US Mail ZIP Code**

This entry reflects the designated five-digit United States ZIP Code of the primary owner’s mailing address. **Leave all non-U.S. addresses blank.**

**This fixed-length numeric field requires a five-digit entry.**

#### **Field 57 - Owner’s State of Domicile**

This entry reflects the postal abbreviation for the property owner’s state or territory of domicile. Enter “FC” if the owner’s domicile is in a foreign country.

**This is a fixed-length alphabetical field that requires a two-character entry.**

#### **Field 58 - Name of Fiduciary Responsible for Paying Taxes (if different from the owner)**

**This field is no longer required (Chapter 2012-193, Laws of Florida).**

Leave this field blank on the 2018 NAL submissions. The department may determine an alternative use of this field in the future.

#### **Field 59 - Fiduciary’s Street Address line 1**

**This field is no longer required (Chapter 2012-193, Laws of Florida).**

Leave this field blank on the 2018 NAL submissions. The department may determine an alternative use of this field in the future.

#### **Field 60 - Fiduciary’s Street Address line 2**

**This field is no longer required (Chapter 2012-193, Laws of Florida).**

Leave this field blank on the 2018 NAL submissions. The department may determine an alternative use of this field in the future.

### **Field 61 - Fiduciary's City**

**This field is no longer required (Chapter 2012-193, Laws of Florida).**

Leave this field blank on the 2018 NAL submissions. The department may determine an alternative use of this field in the future.

### **Field 62 - Fiduciary's State or Country**

**This field is no longer required (Chapter 2012-193, Laws of Florida).**

Leave this field blank on the 2018 NAL submissions. The department may determine an alternative use of this field in the future.

### **Field 63 - Fiduciary's US Mail ZIP Code**

**This field is no longer required (Chapter 2012-193, Laws of Florida).**

Leave this field blank on the 2018 NAL submissions. The department may determine an alternative use of this field in the future.

### **Field 64 - Fiduciary Type Code**

**This field is no longer required (Chapter 2012-193, Laws of Florida).**

Leave this field blank on the 2018 NAL submissions. The department may determine an alternative use of this field in the future.

### **Field 65 - Short Legal Description**

This entry reflects a short legal description of the parcel. The data may indicate:

- Township.
- Range.
- Section number or grant number.
- Subdivision name/lot number, if applicable.
- Municipality code or number, if applicable.
- Metes and Bounds description, if applicable.

**This is a variable-length alphanumeric field that can contain up to 30 characters, including embedded commas and quotation marks.**

### **Field 66 - Homestead Applicant's Status**

This entry reflects the homestead applicant's status. Each county may decide how to code the field to best meet local needs.

**This is a fixed-length alphanumeric field that requires a one-character entry. If not applicable, leave blank.**

### **Field 67 - Homestead Applicant's SSN**

This entry reflects the requirement of section 196.011(1)(b), F.S. The property appraisers' records should contain social security numbers (SSN) for each homestead-exempt parcel on the assessment file, and each NAL the property appraiser submits to the Department of Revenue should include this information.

**This is a fixed-length numeric field that requires a nine-digit entry. If not applicable, leave blank.**

### **Field 68 - Homestead Co-applicant's Status**

This entry reflects the homestead co-applicant's status. Each county may decide how to code the field to best meet local needs.

**This is a fixed-length alphanumeric field that requires a one-character entry. If not applicable, leave blank.**

### **Field 69 - Homestead Co-applicant's SSN**

This entry reflects the requirement of section 196.011(1)(b), F.S. The property appraisers' records should contain social security numbers (SSN) for each homestead-exempt parcel on the assessment file, and each NAL the property appraiser submits to the Department of Revenue should include this information.

**This is a fixed-length numeric field that requires a nine-digit entry. If not applicable, leave blank.**

### **Field 70 - Confidentiality Code**

This entry identifies any records that are confidential. **The only accepted code is "1."**

**This is a fixed-length numeric field that requires a one-digit entry. If not applicable, leave blank.**

### **Field 71 - Market Area**

This entry reflects the parcel's market area.

**This is a variable-length alphanumeric field that can contain up to three characters.**

### **Field 72 - Neighborhood Code**

This entry reflects the parcel's neighborhood code.

**This is a variable-length numeric field that can contain up to ten digits. If not applicable, leave blank.**

### Field 73 – Public Land Code

This is a fixed-length alphabetical field that requires a one-character entry. If not applicable, leave blank.

Public Land Codes	
Code	Description
F	Federal

This entry reflects the section number or grant number where the property is located.

This is a fixed-length alphanumeric field that requires a three-character entry.

### **Field 78 - Census Block Group**

This entry reflects the parcel's US Census Block Group (or center of the parcel if located in multiple block groups). Use the complete Federal Information Processing Standard (FIPS) code.

Example: 120010002001 (12 characters)

The 2010 US Census Block Group is the 12-character GEOID column at the following link:

[http://tigerweb.geo.census.gov/tigerwebmain/Files/tab10/tigerweb\\_tab10\\_blkgrp\\_2010\\_fl.html](http://tigerweb.geo.census.gov/tigerwebmain/Files/tab10/tigerweb_tab10_blkgrp_2010_fl.html).

**This is a variable-length alphanumeric field that can contain up to 16 characters.**

### **Field 79 - Physical Location - Street Address line 1**

This entry reflects the parcel's physical street address. If the parcel is vacant and has not been assigned a street number, enter the name of the fronting (or ingress/egress) road.

**This is a variable-length alphanumeric field that can contain up to 40 characters.**

### **Field 80 - Physical Location - Street Address line 2**

This entry reflects the parcel's additional physical address information (e.g., suite number), if applicable. If not applicable, leave blank.

**This is a variable-length alphanumeric field that can contain up to 40 characters.**

### **Field 81 - Physical Location - City**

This entry reflects the city of the parcel for all vacant or improved parcels.

**This is a variable-length alphanumeric field that can contain up to 40 characters.**

### **Field 82 - Physical Location - US ZIP Code**

This entry reflects the designated five-digit United States ZIP Code of the parcel for all vacant or improved parcels.

**This is a fixed-length numeric field that requires a five-digit entry.**

### **Field 83 - Alternate Key**

This entry reflects the alternate key identifier if the county uses an alternate key system.

**This is a variable-length alphanumeric field that can contain up to 26 characters. If not applicable, leave blank.**

### **PORTABILITY CODES (FIELD 84 THROUGH FIELD 89)**

Data entries for fields 84 through 89 relate to homestead parcels with assessment limitation differences that were transferred from previous homesteads for the current assessment file. Complete these fields only in the year when the transfer occurs.

**If one field has an entry, all six portability fields should have entries. For denied applications, leave fields 84 through 89 blank.**

#### **Field 84 - Flag for Current Year Assessment Difference Transfer**

This entry reflects whether an assessment limitation difference was transferred to the parcel for the assessment year. **The only acceptable entry for this field should be “1.”**

**This is a fixed-length numeric field that requires a one-digit entry. If not applicable, leave blank.**

#### **Field 85 - Number of Owners of Previous Homestead**

This entry reflects the previous homestead’s number of owners that the property appraiser used to calculate the transferred assessment limitation difference amount. This number should be the denominator in the calculation of the transferred difference. **If the transferred difference was not split, enter a “1.”**

**This is a variable-length numeric field that can contain up to two digits. If not applicable, leave blank.**

#### **Field 86 - Assessment Difference Value Transferred**

This entry reflects the value of the assessment difference that the property appraiser transfers and subtracts from just value to determine the new homestead’s assessed value. This difference is calculated based on s. 193.155(8)(a), F.S. If the property appraiser has granted an application for an assessment limitation difference but the granted differential amount is \$0.00, then enter a “0” in this field.

**This is a variable-length numeric field that can contain up to 12 digits. If not applicable (including denied applications), leave blank.**

#### **Field 87 - County Number of Previous Homestead**

This entry reflects the DOR county number of the county from which the property appraiser transferred the assessment difference (refer to the county number list for field 1).

**This is a fixed-length numeric field that requires a two-digit entry. If not applicable, leave blank.**

#### **Field 88 - Parcel ID of Previous Homestead**

This entry reflects the parcel ID of the homestead from which the property appraiser transferred the assessment difference.

**This is a variable-length alphanumeric field that can contain up to 26 characters. If not applicable, leave blank.**

### **Field 89 - Year in Which Value Transferred**

This entry reflects the year in which the property appraiser transferred the assessment difference. The year must be either of the two immediately previous years.

**This is a fixed-length numeric field that requires a four-digit entry. If not applicable, leave blank.**

### **Field 90 – Exemptions**

This entry reflects all exemption codes and exemption values for multiple exemptions. The format in the commas delimiting this field is the exemption code, followed by a semicolon, followed by the exemption value, followed by a semicolon for each applicable exemption. Each additional exemption code and value will follow with the same format.

Submit a specific exemption code only once. If a code has multiple exemptions, then sum the individual exemption amounts into one total for that code and submit it as one code with one corresponding summarized value.

**This is a variable alphanumeric field that must end with a comma.**

**Example of a parcel with three exemptions: ...,01;25000;02;25000;34;500,...**

### **Field 91 - Parcel ID Change Field**

This entry reflects the previous parcel ID if the formatting of the parcel ID numbering system has changed since the last tax file submission. Enter the previous parcel ID; otherwise, leave blank.

**This is a variable-length alphanumeric field that can contain up to 26 characters.**

### **Field 92 - File Sequence Number**

This entry reflects the file sequence number. A number will be assigned in the order accounts appear on the assessment file.

**This is a variable-length alphanumeric field that can contain up to seven digits.**

### Field 3 - Parcel Identification Code

This entry reflects a unique code applied to each parcel. It should be based on a parcel coding system applied uniformly throughout the county.

**This is a variable-length alphanumeric field that can contain up to 26 characters.**

### Field 4 - Assessment Year

This entry reflects the current assessment year.

**This is a fixed-length numeric field that requires a four-digit entry.**

### Field 5 - Sale Transfer Code (Qualification Code)

This entry reflects the sale transfer or qualification code for each sale listed. All sales listed must have a corresponding transfer code.

**This is a fixed-length numeric field that requires a two-digit entry.**

**For 2017 sales, please use the current qualification codes listed below.**

#### Real Property Transfer Codes for DOR and Property Appraisers to Use Beginning January 1, 2017 (Revised 11-14-2016)

The property appraiser will use these codes when reporting real property ownership transfers (sales) to the department under sections 193.114(2)(n) and 195.0995(1), F.S.

#### QUALIFIED Arm's Length Real Property Transfers (included in sales ratio analysis)

01. Transfers qualified as arm's length because of examination of the deed or other instrument transferring ownership of real property
02. Transfers qualified as arm's length because of documented evidence

#### QUALIFIED Arm's Length Real Property Transfers (excluded from sales ratio analysis)

03. Transfers qualified as arm's length at time of transfer, but the physical property characteristics changed significantly after the transfer, or transfer included property characteristics not present at time of transfer ([use these subcodes: 1-parcel split, 2-parcel combination, 3-new construction, 4-deletion, 5-disaster, 6-other \(multiple changes/incomplete construction, etc\), 7-remodel/renovation](#))
04. Transfers qualified as arm's length at time of transfer, but the legal characteristics changed significantly after the transfer
05. Arm's length transaction transferring multiple parcels with multiple parcel identification numbers
06. Arm's length transaction transferring a single parcel that crosses one or more county lines

**DISQUALIFIED Real Property Transfers based on Deed Type or examination of the deed/real property transfer instrument**

11. **Corrective Deed, Quit Claim Deed, or Tax Deed**; deed bearing Florida Documentary Stamp at the minimum rate prescribed under Chapter 201, F.S.; transfer of ownership in which no documentary stamps were paid
12. Transfer to or from financial institutions ([use transfer code 18 for government entities](#)); deed stating “In Lieu of Foreclosure” (including private lenders)
13. Transfer conveying cemetery lots or parcels
14. Transfer containing a reservation of occupancy for more than 90 days (life estate interest)
15. Removed - not currently accepted; reserved for future use
16. Transfer conveying ownership of less than 100% undivided interest
17. Transfer to or from a religious, charitable, or benevolent organization or entity
18. Transfer to or from a federal, state, or local government agency (including trustees (or board) of the Internal Improvement Trust Fund, courts, counties, municipalities, sheriffs, or educational organizations [as well as FDIC, HUD, FANNIE MAE, and FREDDY MAC](#))
19. Transfer to or from bankruptcy trustees, administrators, executors, guardians, personal representatives, or receivers
20. Transfer to or from utility companies
21. **Contract for Deed; Agreement for Deed** ([does not include Warranty Deed associated with seller financing](#))

**DISQUALIFIED Real Property Transfers based on documented evidence**

30. Transfer [between relatives or between corporate affiliates \(including landlord-tenant\)](#)
31. Transfer involving a trade or exchange of land ([does not include 1031 exchanges](#))
32. Transfer involving an abnormal period of time between contract date and sale date (examples: pre-construction sales, pre-development sales)
33. Transfer that included incomplete or unbuilt common property
34. Transfer satisfying payment in full of a prior property contract
35. Transfer involving atypical amounts of personal property
36. Transfer involving atypical costs of sale
37. Transfer in which property’s [market exposure was atypical](#); transfer involving participants who were atypically motivated; transfer involving participants who were not knowledgeable or informed of market conditions or property characteristics
38. Transfer that was forced or under duress; transfer that was to prevent foreclosure (occurs prior to date shown in judgment order for public sale)
39. Transfer in which the consideration paid for real property is verified to be different than the consideration indicated by documentary stamps
40. Transfer in which the consideration paid for real property is verified to be significantly influenced by non-market financing or assumption of non-market lease
41. Other; requires documentation and prior approval of the DOR (see <http://dor.myflorida.com/dor/property/rp/dataformats/pdf/code41req.pdf>)
42. Transfer involving mortgage fraud per a law enforcement agency’s notification of probable cause
43. Transfer in which the sale price (as the documentary stamps indicate) is verified to be an allocated price as part of a package or bulk transaction

**Real Property Transfers with a PENDING qualification decision**

98. Unable to process transfer due to deed or transfer instrument errors (examples: incomplete or incorrect legal description, incorrect grantor)
99. Transfer was recorded or otherwise discovered in the previous 90 days and qualification decision is pending; invalid for transfers recorded or otherwise discovered more than 90 days earlier

Major changes from the 2016 Real Property Transfer Codes are in **red text**. Minor changes from 2016 Real Property Transfer Codes are in **blue text**.

### Field 6 - Vacant or Improved Code

Use “V” for vacant property or “I” for improved property to describe what the sale price includes, not what the property is at the time of sale. For example, if the sale price is for land and improvements but the improvements are not built yet (i.e., pre-construction sale), please use an “I” code to indicate an improved sale.

**This is a fixed-length alphabetical field that requires a one-character entry (V or I).**

Vacant/Improved Codes	
Code	Definition
V	Vacant land
I	Improved property

### Field 7 - Sale Property Change Code

This entry reflects a numeric code indicating any significant changes in property characteristics that occurred between the sale date and the assessment reporting date.

**NOTE:** If two or more of codes 1 through 5 or 7 occur after the sale date and before the property appraiser submits the Sales Data File to the department, use code 6 (Other). Qualified sales (01 or 02) with sale change codes 1-7 will be excluded from sales ratio analysis with the exception of qualified sales (01 or 02) with sale change codes 3-4, where the new construction or deletion value is 10 percent or less, which will be adjusted and included for sales ratio analysis.

**This is a fixed-length numeric field that requires a one-digit entry. If not applicable, leave blank.**

Sale Change Codes	
Code	Significant Change
1	Split
2	Combine
3	New Construction
4	Deletion
5	Disaster
6	Other (requires explanation to the department if used)
7	Remodel and renovation

### Field 8 - Sale Price

This entry reflects the sale price as documentary stamps indicate.

**This is a variable-length numeric field that can contain up to 12 digits.**

### **Field 9 - Sale Year**

This entry reflects the date of execution of instrument (year).

**This is a fixed-length numeric field that requires a four-digit entry (year).**

### **Field 10 - Sale Month**

This entry reflects the date of execution of instrument (month).

**This is a fixed-length numeric field that requires a two-digit entry (month).**

### **Field 11 - Official Record Book**

This entry reflects the official record (O.R.) book number of the sale.

**This is a variable-length alphanumeric field that can contain up to six characters. If not applicable, leave blank.**

### **Field 12 - Official Record Page**

This entry reflects the official record (O.R.) page number of the sale.

**This is a variable-length alphanumeric field that can contain up to six characters. If not applicable, leave blank.**

### **Field 13 - Clerk of the Court Instrument Number**

This entry reflects the clerk of court instrument number of the sale. Fill either this field or the O.R. book and page fields, not both.

**This is a variable-length numeric field that can contain up to 20 digits. If not applicable, leave blank.**

### **Field 14 - Sale Identification Code**

This entry reflects a unique code assigned to each itemized sales transaction. This code can be either a unique, internally generated code not exceeding 25 alphanumeric characters or a four-digit code of which the first two digits indicate the year (e.g., 09 or 10) and the second two digits indicate the transaction number (01, 02, 03, etc.). This identification code remains with the sale for all subsequent pertinent submissions. The transaction part of the code preferably reflects the chronological order of the sale's processing.

**This is a variable-length alphanumeric field that can contain up to 25 characters.**

**Section 3**  
**Name–Address–Personal**  
**(NAP)**

## Field 1- County Number

## **Field 2 – Account Identification Code**

This entry reflects a unique code applied to each account. It should be based on an account numbering system applied uniformly throughout the county.

**This is a variable-length alphanumeric field that can contain up to 20 characters.**

## **Field 3 - Taxing Authority Code**

A code indicating the taxing authorities whose jurisdictions include this account. This is the same as the real property code.

**This is a variable-length alphanumeric field that can contain up to five characters.**

## **Field 4 - File Type**

This entry reflects the file type.

**This is a fixed-length alphabetical field that requires the one-character entry “P” for the NAP file.**

## **Field 5 - Assessment Year**

This entry reflects the current assessment year.

**This is a fixed-length numeric field that requires a four-digit entry.**

## **Field 6 - NAICS Code**

This entry reflects the NAICS codes in Rule 12D-8.009(3)(a), Florida Administrative Code.

**Note:** The North American Industry Classification System (NAICS) code list is available at [http://floridarevenue.com/property/Pages/Cofficial\\_CompleteSubRollEval.aspx](http://floridarevenue.com/property/Pages/Cofficial_CompleteSubRollEval.aspx). The list also includes several codes that only the State of Florida uses.

**This fixed-length numeric field requires a six-digit entry.**

## **Field 7 - Furniture, Fixtures and Equipment Just Value**

This entry reflects the just value of furniture, fixtures, and equipment. This field should also include the just value of pollution control devices.

**This is a variable-length numeric field that can contain up to 12 digits.**

## **Field 8 - Leasehold Improvements Just Value**

This entry reflects the just value of leasehold improvements.

**This is a variable-length numeric field that can contain up to 12 digits.**

### **Field 9 - Total Just Value**

This entry reflects the total just value of the personal property. This field must include the total of fields 7 and 8.

**This is a variable-length numeric field that can contain up to 12 digits.**

### **Field 10 - Total Assessed Value**

This entry reflects the total assessed value of the personal property. This field must include the pollution control device assessed value if one exists.

**This is a variable-length numeric field that can contain up to 12 digits.**

### **Field 11 - Pollution Control Devices Just Value**

This entry reflects the just value of pollution control devices assessed under s. 193.621, F.S. Field 7 must include this value so that it is reflected in field 9.

**This is a variable-length numeric field that can contain up to 12 digits.**

### **Field 12 - Pollution Control Devices Assessed Value**

This entry reflects the assessed value of pollution control devices assessed under s. 193.621, F.S. Field 10 must include this value.

**Note:** The total just and assessed values (fields 9 and 10) will be the same if no pollution control device just and assessed values exist. If pollution control device just and assessed values (fields 11 and 12) exist, the difference between the total just and assessed values will equal the difference between the pollution control device just and assessed values.

**This is a variable-length numeric field that can contain up to 12 digits.**

### **Field 13 - Total Exemption Value**

This entry reflects the total exemption value and should equal the sum of the exemption values in field 34.

**This is a variable-length numeric field that can contain up to 12 digits.**

### **Field 14 - Total Taxable Value**

This entry reflects the total taxable value and should equal the total assessed value minus the total exemption value.

**This is a variable-length numeric field that can contain up to 12 digits.**

### **Field 15 - Penalty Rate**

This entry reflects the penalty rates under section 193.072, F.S.

**This is a fixed-length numeric field that can contain up to two digits.**

### **Field 16 - Owner's Name**

This entry reflects the primary owner's name.

**This is a variable-length alphanumeric field that can contain up to 30 characters.**

### **Field 17 - Street Address (or P.O. Box) of Owner**

This entry reflects the primary owner's street or P.O. box mailing address.

**This is a variable-length alphanumeric field that can contain up to 40 characters.**

### **Field 18 - City of Owner**

This entry reflects the city name of the primary owner's mailing address. Only the city name should appear in this field.

**This is a variable-length alphanumeric field that can contain up to 40 characters.**

### **Field 19 - State or Country of Owner**

This entry reflects the designated state, territory, or country of the primary owner's mailing address. Only a state or country should appear in this field.

**This is a variable-length alphabetical field that can contain up to 25 characters.**

### **Field 20 - US ZIP Code of Owner**

This entry reflects the designated five-digit United States ZIP Code of the primary owner's mailing address. Leave all non-U.S. addresses blank.

**This fixed-length numeric field requires a five-digit entry.**

### **Field 21 - Owner's State of Domicile**

This entry reflects the postal abbreviation for the property owner's state or territory of domicile. Enter "FC" if the owner's domicile is in a foreign country.

**This is a fixed-length alphabetical field which requires a two-character entry.**
