2019 Allocation Report

Florida provides a corporate income tax credit to eligible businesses for certain qualified research expenses. Pursuant to Section 220.196, Florida Statutes, the total amount of credits that may be granted under this program is \$9 million for expenses incurred in the 2018 calendar year.

The Florida credit is contingent, in part, on the business receiving an approval letter from the Department of Economic Opportunity that the business is an eligible target industry business and that it received the federal research and development tax credit.

The statutory cap of \$9 million for expenses incurred in the 2018 calendar year was allocated as follows:

- The Department received 199 applications, requesting a total of \$107,904,637 in credit.
- 188 applications were approved with the applicant receiving an allocation of the available \$9 million in credit. Each applicant received approximately eight percent (0.08) of the amount of credit determined in their application. These 188 applications requested \$107,369,288 in credit.
- Eleven (11) applications were denied for various reasons, including applicant not being a corporation, applicant not having current certification letter from the Department of Economic Opportunity, and application figures resulting in zero credit requested. These eleven applications requested \$535,349 in credit.

2018 Allocation Report

Florida provides a corporate income tax credit to eligible businesses for certain qualified research expenses. Pursuant to Section 220.196, Florida Statutes, the total amount of credits that may be granted under this program is \$16.5 million for expenses incurred in the 2017 calendar year.

The Florida credit is contingent, in part, on the business receiving an approval letter from the Department of Economic Opportunity that the business is an eligible target industry business and that it received the federal research and development tax credit.

The statutory cap of \$16.5 million for expenses incurred in the 2017 calendar year was allocated as follows:
