Floating Rate of Interest Remains at 9 Percent for the Period January 1, 2020 through June 30, 2020

Florida law provides for a floating rate of interest on payments of most taxes and fees based on the adjusted prime rate charged by banks. This floating rate of interest applies to deficiencies (underpayments), late payments, and overpayments. The taxes and fees the floating rate of interest applies to are listed at the end of this document.

Interest Rates

The rate of interest for the period January 1, 2020 through June 30, 2020 is **9 percent**. **The daily interest rate factor to be used for this period is .000245902**. The daily interest rate is named a factor because it is not expressed as a percentage. This rate is subject to change effective July 1, 2020.

Rates for Deficiencies (Underpayments) and Late Payments

The rates of interest for deficiencies (underpayments) and late payments of tax are:

Interest Periods	Rates on Deficiencies (Underpayments) and Late Payments *	Daily Interest Rate Factor
01/01/20 – 06/30/20	9 percent	.000245902
01/01/19 – 12/31/19	9 percent	.000246575
07/01/17 – 12/31/18	8 percent	.000219178
01/01/17 – 06/30/17	7 percent	.000191781

***NOTE:** Rates may not exceed 12 percent.

To calculate interest due with your tax return:

1. Get the daily interest rate factor(s) for the filing period(s).
2. Calculate the number of days your return is late by counting the number of days from the “late after” date on the return through the date the return and payment are postmarked by the U.S. Postal Service or hand-delivered to the Department. Include the day the return and payment are postmarked or hand-delivered to the Department when calculating the number of days late.
3. Multiply the amount of tax due by the number of days late and then by the appropriate daily interest rate factor(s).

Example 1: A taxpayer owed \$2,000 with the January 2019 Florida sales and use tax return (late after February 20, 2019). The taxpayer filed the return and paid the tax due on March 11, 2019. The return and payment are 19 days late and the daily interest rate factor for February 2019 to March 2019 is used. The interest amount due is computed as follows:

Tax Due	Number of Days Late	Daily Interest Rate Factor	Interest Due
\$2,000 x	19 (2/21/19 to 3/11/19) x	.000246575	= \$ 9.37

Example 2: A taxpayer owed \$5,000 with the August 2018 Florida sales and use tax return (late after September 20, 2018). The taxpayer filed the return and paid the tax due on February 1, 2019. The return and payment are 134 days late. Two different daily interest rate factors must be used in the calculation because the daily rate changed on January 1, 2019. For the period September 21, 2018 to December 31, 2018, the daily interest rate factor is .000219178 and for the period January 1, 2019 to February 1, 2019, the daily interest rate factor is .000246575. The interest amount due is computed as follows:

Tax Due	Number of Days Late	Daily Interest Rate Factor	Interest Due
\$5,000 x	102 (from 9/21/18 to 12/31/18) x	.000219178	= \$ 111.78
\$5,000 x	32 (from 1/1/19 to 2/1/19) x	.000246575	= \$ 39.45
Total Interest Due:			\$151.23

Rates for Overpayments

The rates of interest for overpayments of tax are:

Interest Periods	Rates on Overpayments**	Daily Interest Rate Factor
01/01/20 – 06/30/20	9 percent	.000245902
01/01/19 – 12/31/19	9 percent	.000246575
07/01/17 – 12/31/18	8 percent	.000219178
01/01/17 – 06/30/17	7 percent	.000191781
01/01/16 – 12/31/16	7 percent	.000191257
01/01/13 – 12/31/15	7 percent	.000191781

****NOTE:** Interest may not exceed 11 percent. Interest on overpayments of tax is not applicable to reemployment tax. Generally, interest on overpayments begins to accrue on the 91st day after the Department receives a completed application for refund.
