*****NOTE:** See [TIP 03C01-02R](#) for earlier years.

To calculate interest due with your tax return:

1. Get the daily interest rate factor(s) for the filing period(s). The daily interest rate is named a factor because it is not expressed as a percent.
2. Calculate the number of days your return is late by counting the number of days from the "late after" date on the return through the date the return and payment are postmarked by the U.S. Postal Service or hand-delivered to the Department. Include the day the return and payment are postmarked or hand-delivered to the Department when calculating the number of days late.

3. Multiply the amount of tax due by the number of days late and then by the appropriate daily interest rate factor(s).

Example 1: A taxpayer owed \$1,000 with his November 2014 Florida sales and use tax return (late after December 20, 2014). The taxpayer filed the return and paid the tax due on March 10, 2015. The return and payment are 80 days late and the daily interest rate factor for December 2014 to March 2015 is used. The interest amount due is computed as follows:

Tax Due		Number of Days Late		Daily Interest Rate Factor		Interest Due
\$1,000	x	80 (12/21/14 to 3/10/15)	x	.000191781	=	\$ 15.34

Example 2: A taxpayer owed \$5,000 with her September 2012 Florida sales and use tax return (late after 10/20/12). The taxpayer filed the return and paid the tax due on February 10, 2013. The return and payment are 113 days late. Two different daily interest rate factors must be used in the calculation because the interest rate changed on January 1, 2013. For the period 10/21/12 to 12/31/12, the daily interest rate factor is .000191257 and for the period January 1, 2013 to February 10, 2013, the daily interest rate factor is .000191781. The interest amount due is computed as follows:

Tax Due		Number of Days Late		Daily Interest Rate Factor		Interest Due
\$5,000	x	72 (from 10/21/12 to 12/31/12)	x	.000191257	=	\$ 68.85
\$5,000	x	41 (from 1/1/13 to 2/10/13)	x	.000191781	=	\$ 39.32

Total Interest Due: \$108.17
